**1 PROLIFIC**

This 25-cm-deep stainless steel basin has three built-in ledges that accommodate racks, a colander, a washbin and a bamboo cutting board, seamlessly transforming it from a simple wash station into a multi-functional work zone. [kohler.com](http://kohler.com)

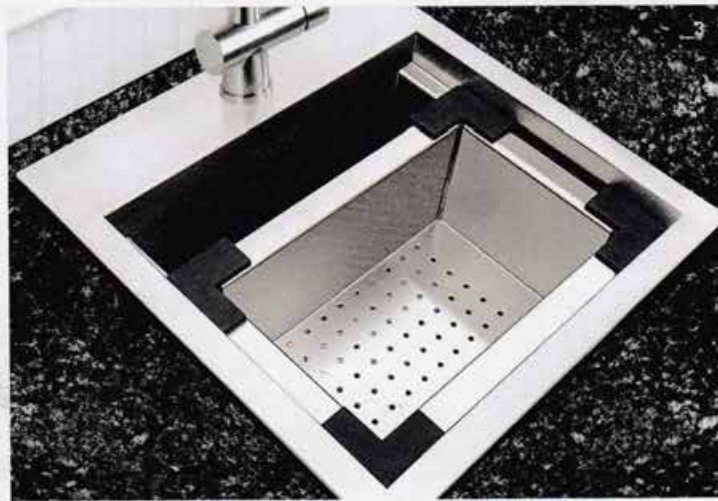

**2 PEKOE APRON FRONT**

A traditional farmhouse sink with industrial edge. Rubber padding on the sides and bottom absorbs sound and vibration. Available in 30- and 33-inch lengths. [americanstandard.ca](http://americanstandard.ca)

**Not-So-Basic Basins**

FIVE KITCHEN SINKS FOR MORE THAN JUST WASHING UP

WORDS \_Kendra Jackson

**3 WORKSTATION**

Intended for small kitchens, this sink comes in two sizes: 38 x 38 and 38 x 51 cm. Accessories that sit along an inner ledge to create a prep station include a basket strainer, wooden cutting board and more. [ruvati.com](http://ruvati.com)

**4 CHEF CENTRE III**

An integrated ledge and interchangeable containers and work surfaces turn this system into a customized command centre. [franke.com](http://franke.com)

**5 PRECIS U LOW DIVIDE**

A lowered, off-centre divide allows for easier cleaning of large pots and baking trays. Made from Silgranit, the double basin can be installed with the smaller end on either the left or the right side. [blancocanada.com](http://blancocanada.com)
