SIL SAYS

The best way to save surface space is to choose a sleek washstand with a towel bar. The traditional style juxtaposed with the modern matte-black finish creates the perfect tension and balance.

The Metallo washstands are timeless design classics, with right-angle tee joints that reference traditional bathroom pipework, looking equally at home in a more traditional bathroom or industrial-inspired scheme. Each washstand features a practical towel bar and a shelf for storage, finished in a tubular brass. The Metallo is available in two sizes, shown here is the Metallo 114, which is topped with a sleek Mandello 114 Solo basin. Metallo 114, \$2,730; vandabaths.com

The Candella washstands are typified by the design of the legs, which feature elegantly shaped details. A towel bar and a storage shelf in tempered glass are practical yet well designed, lending a sense of hotel style to the bathroom. The Candella is available in two sizes, shown here is the Candella 100 topped with a Victorian-inspired Lario 100 Solo basin. Candella 100, \$2,878; vandabaths.com
