12 STUDIO TWIST
studiotwist.net

The Polaroid textile collection's monochromatic palette offers a nod to the midcentury modern styling of its namesake camera. Made from 100% polypropylene, the lightweight, colorfast fabrics are machine washable and recyclable, as well as abrasion, bacteria and bleach resistant. Inherently FR, they also meet ACT standards.

13 GRANDEUR HARDWARE
grandeurhardware.com

The Fifth Avenue Tall Plate collection offers elongated plates scaled for the proportions of taller, oversized doors in rooms with high ceilings. Solid brass forging measures 11-by-2.675 in. Available in eight finishes and knob choices including options in black glass and 24% lead crystal.

14 PALECEK
palecek.com

Pismo features pencil pole-rattan wrapped horizontally around a hardwood chair frame with a 360-degree swivel mechanism. Available in numerous finishes, the piece comes with an upholstered seat and two loose back cushions. The chair measures 37-by-32.5-by-29 in. and weighs 40 lbs.

15 MTI BATHS
mtibaths.com

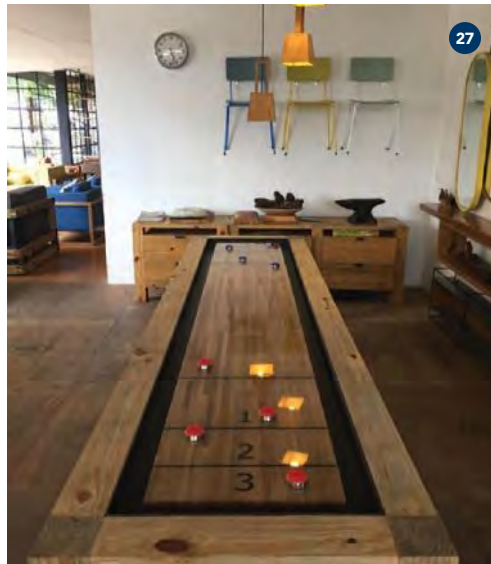

The Eryx wall-mounted vanity's shape recalls the lines of a dancer's leg. Kitchen and bath designer Matthew Quinn conceived the non-porous, stain-, mold- and mildew-resistant fixture. Accommodating deck- or wall-mounted faucets, the piece is crafted from white or biscuit-colored engineered SculptureStone featuring 70% organic materials and high-performance resins. It measures 34.5-by-25-by-22 in. with a 17-sq.-in. matte or gloss sink and legs in a range of colors.

16 D'STYLE BY KIMBALL HOSPITALITY
dstyle.com

Sleek and contemporary, the Zuan Shi end table features a smoked gray glass or natural walnut top, and a base made from parallel tubes painted matte black. The piece measures 20.5 sq. in. Additional items in the collection include a buffet, nightstands and cocktail and console tables.

17 TILEBAR
tilebar.com

The Art Deco collection by interior designer Vanessa Deleon mixes Nero Marquina, white Carrara and Thassos marbles with brass inlays to form two styles of 24-sq.-in. indoor floor and wall tiles. Eight configurations can be arranged from the geometric patterns, with customization options for large orders.

24 VICTORIA + ALBERT
vandabaths.com
 A void underneath the compact Barcelona 2 bathtub conceals waste plumbing so existing floors need not be disturbed during renovation. With a modern rimless design inspired by the architecture of its namesake city, it measures 66.85-by-31.5-by-21 in. and is made from Englishcast, the British company's composite of its proprietary white rock material, Volcanic Limestone, with high-performance resins.

25 SIEN + CO
sienandco.com
 Maya outdoor pillows resist UV radiation, mold, mildew and staining thanks to 100% solution-dyed acrylic performance fabrics designed to suggest the natural imperfection of textured, handcrafted wool. Custom made using Sunbrella Renaissance yarns that mix virgin and post-industrial recycled Sunbrella fibers, the fabric retains natural irregularities in color and texture.

26 GENSUN
gensuncasual.com
 Industrial designers Chris and Jon Panichella referenced neoclassical architecture for their Morro Bay collection. Made with cast and extruded aluminum and offered in 20 finish options, the series is accented with fluted legs and curved arms that start and end with volutes. Cushion, sling and padded sling chairs come in 20 different fabric options and varied seat heights.

27 ENTABLE
entable.co/en
 Woodworker and furniture maker Julian McLean's shuffleboard accent features 6-by-6-in. Monterrey Pine beams with a reinforced steel frame. Natural leather rails contrast with a high-gloss polyurethane game surface applied over an oak butcher block slab.

28 KB CONTRACT
kbcontract.com
 Named for prominent global parks, the Parke collection has unveiled four new colors and patterns. The 54-in. fabrics, some of which can be cleaned with bleach, range from 90,000 to 100,000 double rubs. Content varies by pattern: 100% polyester; blends of polyester and recovered, upcycled polyester; and polyester and acrylic.

29 PARADIGM TRENDS
paradigmrends.com
 The Saturn Shiny ice bucket tops a spherical-shaped container with a circular lid. Made from hammered stainless steel with a polished finish, it holds two quarts, measures 14 in. in diameter and is complemented by a companion tray.

1 DESIGNTEX
designtex.com

For the large-scale wallcovering, Resurfacing, Portland, Maine, artist Jenny McGee Dougherty took inspiration from the accidental compositions created when city authorities use paint rollers to imperfectly cover graffiti. The 50-in. wide, random-match collection features blocky, architectural shapes and is made from 40% latex, 30% post-consumer recycled cellulose, 20% cellulose and 10% polyester.

2 ARCHITECTURAL SYSTEMS
archsystems.com

Chiseled wood panels are made from unfinished, thermo-treated solid ash on an MDF substrate and measure 47-by-94-by-0.55 in. Varied textures in the 15 patterns balance modernity with the heritage feel of handcrafted timber.

3 STONEIMPRESSIONS
stoneimpressions.com

Artisan features patterned Moroccan-style tiles made from natural limestone or Carrara marble. Available in 6-sq.-in. and 12-sq.-in. sizes, the collection comes in ash, beige and sea colors. All are sealed with a clear, three-part acrylic topcoat suitable for walls, some wet spaces, backsplashes and light-traffic floors.

4 TILE DOCTOR
tiledoctor.com

VersaLite Stone features 24 colors and textures of hand-split natural slate, quartzite and sandstone veneers in 24-by-48-in. sheets, 48-by-96-in. panels and custom sizes. Ultra-flexible "fabric" polymer and translucent fiberglass/polyester resin backing options allow the thin, lightweight surfacing to replace heavy slabs in complex design applications including curved walls and doors, pillars and partitions, and backlit installations.
