

ECLECTIC ELEGANCE

NEW SCALA™ TUB BLENDS HIGH-END DESIGN AND MODERN FINISHES

(Québec, Canada) BainUltra brings a classic elegance to Avant Garde design with a new therapeutic bath that combines a traditional profile with modern finishing touches. Inspired by a centuries-old Milan opera house, the Scala™ tub offers a wonderful sense of ease and refinement that results in an extraordinary bathing experience that soothes and restores the body, mind and spirit. As a contemporary version of the traditional clawfoot tub, Scala is notable for its modern metal feet and elongated oval silhouette, as well as the optional metal armrests available in different colors that coordinate perfectly to the feet. With a minimalist outer shell and a host of available therapy options, the Scala tub is destined to be a beautiful focal point in the most luxurious of bathroom spaces.

Scala's balanced proportions and clean lines are equally at home in an urban loft or a vintage brownstone. It is generously sized at 72" long by 42" wide and features a spacious bathing well that easily accommodates two bathers. Crafted of durable acrylic, this stunning tub has a flowing seamless appearance with gentle curves and wider front and rear decks. Scala is available in a gorgeous glossy white or striking UltraVelour matte finish. The chunky metal feet and coordinating armrests are offered in eight different finishes, including new options for Satin Brass, Matte Black and Black Chrome.

The Scala tub moves beyond aesthetics to offer wellness-inspired therapies that enhance and enrich the bathing experience. The tub is available in the Thermomasseur category as well as a soaker to which you can add BainUltra's new chromatherapy Illuzio® and ThermoTherapy. BainUltra's incredible new Illuzio chromatherapy system features LED lights embedded within the structure of the bath that are imperceptible when not in operation. The colored lights glow through the tub's acrylic shell to provide therapeutic benefits and a beautiful visual effect. Another option available is the popular Warmtouchshell® heating zones that heats tub walls from within, helping to provide a subtle yet relaxing heat for the bather.

BAINULTRA INTRODUCES THE SCALA BATHTUB

The Scala bath is an impressive design achievement that pairs striking good looks with exceptional comfort and therapies. Discover the benefits of this extraordinary tub and the beauty and relaxation it brings to the bathroom.

ABOUT BAINULTRA

For over 40 years, BainUltra[®], a Canadian company, has helped customers throughout North America improve their personal health. While they've pioneered the development of therapeutic air jet baths, their mission over the years has evolved. Today, they offer an integrated line of products that help consumers improve relaxation, health and well-being right in their own homes. The company's mission is to transform the bathroom from the ordinary to the inspired, by making it a fully personalized space that uses the best designs and therapies that will cater to the needs of your body, mind and spirit. BainUltra uses the latest advances in hydrotherapy - incorporating heat, massage, light, sound and aroma - to reinvent the bathing experience.
