Ruvati Repositions the Kitchen Sink with Fiamma's New Corner Option ruvati.com

Ruvati's Fiamma Fireclay Collection, hand-crafted in Italy, offers a unique option that allows installation on the corner of a kitchen island. The Fiamma corner sink comes in a double bowl configuration with generous proportions, including extra-deep 10" bowls to accommodate large pots and pans. The sink is crafted by Italian artisans using a naturally white raw clay that is red at 2900 degrees F. This proprietary process fuses the clay to a durable enamel surface that is resistant to chips, cracks, and scratches.

Matco-Norca Offers Lead-Free Domestic Water Meter Coupling matco-norca.com

matco-norca.com

For use with all residential and commercial water meters, Matco-Norca has introduced a lead-free Domestic Water Meter Coupling (433 DLF) that is AWWA C800 compliant.

Made in the U.S., Matco-Norca's 433 DLF connects a water meter to a valve or house piping and can be used for both new construction or replacement. Available in five sizes ranging from 1/2" MIP x 2-1/4" up to 2" MIP x 3", the 433 DLF coupling is manufactured with brass ingot C89833 and complies with the Safe Drinking Water Act (SDWA) as lead free. Its gasket is comprised of NBR SN-719F rubber.

New Ultra-Compact TMV and Angled Shut Off Valves webstonevalves.com

webstonevalves.com

Webstone, a brand of NIBCO, has expanded its Thermostatic Mixing Valve (TMV) line to include a new Ultra-Compact model.

The space-saving 2 1/2" x 3 1/4" body is ideal for under-sink installations. An optional temperature gauge and cold water bypass is available on select models. The company also introduced new angled G1 isolation valves to allow TMV installation in as little as 9" of space and simplify future service. All products are certified lead free and in stock for immediate shipment.
