

Stylish & New for **KBIS 2018**

SEE US AT BOOTH #W1355

Always on the leading edge when it comes to design, Atlas Homewares will unveil trend-setting new collections and finishes at KBIS 2018 that are sure to be show-stoppers.

OSKAR

Inject an element of fun into your design space with the Oskar Collection. Here, circular knobs and curved pulls compliment both vintage and contemporary decors. The knobs have grooved borders that add an extra touch of style, while the handles are notable for their smooth lines and coordinating ends. This collection has a wonderful versatility and comes in a range of sizes to fit any design circumstance.

KATE

Embrace the refinement of classic design with the new Kate Collection by Atlas Homewares. This elegant line brings a sense of richness and luxury to your design space that truly is befitting of royalty. The square pulls have a brushed texture with contrasting border that adds visual interest and a hint of glamor, while the complimentary pulls echo that look with squared ends that cap long rectangular handles with a graceful curve.

BRADBURY

The Bradbury Collection delivers vintage style with a modern twist. Inspired by retro architecture, it features detailed nuances that make this hardware a true stand-out. We love the juxtaposition of curves, lines and angles, the exposed hardware, and the wonderful selection of knobs, pulls and handles in a variety of sizes and finishes. The Bradbury Collection has a chic industrial vibe that is in line with today's trends but retains a classic aesthetic that is timeless and elegant.

Warm Brass Finish

With the resurgence of brass headlining today's hottest design trends, Atlas Homewares is pleased to add this versatile finish to a full array of décor options. With a golden sheen that is both elegant and inviting, Warm Brass offers an intriguing mix of retro style and modern edge that lends itself to a wide variety of design styles.

Atlas will offer Warm Brass as a finish option in seven new collections that will be unveiled at KBIS 2018. A touch of Warm Brass is certain to bring a sense of glamour and luxury to any space, and is a welcome addition to the exceptional line of finishes offered by Atlas Homewares.
