

ALAIRE

Stylish & New for KBIS 2019

SEE US AT BOOTH #N2763

The premier kitchen and bath design event - KBIS 2019 - will make its way to Las Vegas on February 19-21 and Atlas Homewares is ready to engage this captive audience with three remarkable new hardware collections. Known for their fresh designs, Atlas Homewares will unveil Alaïre, Dot and Logan Collections - each a trendsetting original.

ALAIRE

The new Alaïre Collection offers a minimal yet sculptural style for contemporary spaces. This collection is smooth, soft, and tailored with elongated feet adding visual interest while the clean lines keep the pulls minimal. Alaïre is destined to create a focal point in any room. The Alaïre pulls are available in six sizes from 3 ¾ inches to 12 inches and a choice of three finishes.

DOT

Bring a cool California vibe to mid-century modern décors with the new Dot Collection. Pairing a simple curved bar pull with oversized backplates and knobs, Dot makes a strong visual impact with a hip, spherical design that demands attention. The Dot collection includes a considerable 2 inch knob, a 1 ¼ inch knob, five pull sizes from 5 ½ to 12 inches and a choice of four finishes.

DOT

LOGAN

The Logan Collection softens the edges of hardware design with a classic idea made modern. Reminiscent of shapes found in 1950's homewares, the new Logan pulls feature simple squared edges and a modest profile, giving this collection a chic vibe that is in line with today's trends. Install Logan with feet facing in or out for added interest. The Logan pulls are available in sizes from 3 ¾ inches to 7 ½ inches in four finishes.
