### 5. CONTEMPORARY FAUCET

Mixing attention to detail with angular ridges and lines conveys minimalism and industrial appeal in Phylrich's contemporary Stria collection of faucets. Available with three handle options, blade, cube (shown), and lever, Stria's square handles are etched with the letters H and C for temperature control, fusing function and form. The entire Stria collection offers wall-mounted faucets and tub and shower sets. [phylrich.com](http://phylrich.com) circle No. 804

### 6. EXTERIOR PANELS

Fiber-cement architectural wall panel and cladding manufacturer Nichiha now offers Miraia, a high-gloss fiber-cement cladding with a reflective finish, as part of its Designer Series. Available in Glacier, Onyx (shown), and Snow, the mirror-like Miraia is ideal for contemporary projects. The panels are weather-resistant and are backed by a 15-year warranty. [nichiha.com](http://nichiha.com) circle No. 805

### 7. STONE TILE

Designed in celebration of Mediterranean culture, StoneImpressions' Medina patterned tiles are available in Carrara marble or limestone, accented with turquoise or onyx jewel tones. Part of the Artisan Collection, the Medina line was styled to be both contemporary and classic and is suited for kitchen and bath applications. The square natural stone tiles come in 6-inch or 12-inch sizes. [stoneimpressions.com](http://stoneimpressions.com) circle No. 806

### 8. CABINET COLORS

In response to stained wood finish trends veering toward lighter, more natural tones such as driftwood, Dura Supreme Cabinetry has launched a new selection of stains—Brindle, Coriander, Feather (shown with Avery door style in cherry wood species), Harbor, Pebble, and Sesame. The tones are available for cabinets in the company's semi-custom and custom, framed and frameless lines for both kitchens and baths. [durasupreme.com](http://durasupreme.com) circle No. 807
