SOURCES

1. Radii from Allsteel

Radii is a new storage collection that addresses the need to stow, rather than store, with a compact, space-efficient design that allows workers' personal storage to travel with them in today's agile work environments. The versatile system of metal storage pedestals, undermounts and work tools can be used with any desk to increase organization without sacrificing space and a single sheet of steel wraps the storage unit to provide a clean, soft aesthetic. allsteeloffice.com

2. Oskar Collection from Atlas

The Oskar Collection injects a sense of playfulness into any design space with its clean lines and mix of geometric shapes. It pairs circular knobs with a styled grooved border, and square pulls with a round base to achieve a look

that is modern yet charming. Oskar is available in six finishes, including slate, polished chrome, warm brass, brushed nickel, matte black and polished nickel.

3. Hybrid Barn Wood Panels from Architectural Systems

Hybrid Barn Wood Panels offer a definite old school yet contemporary feel. Each of the four available patterns—Basketweave, Chevron, Smoked End Grain and Vintage—have an interlocking installation method with a birch backing and are Lacey Act Compliant. The timbers are offered in a range of mixed species, sizes and finishes to provide a nostalgic design for a variety of spaces.

4. HUSH from wakanine

HUSH works double duty as a commercial grade light fixture and a sound absorbing acoustic device. Available in 12 colors and three sizes, including mini, round and oval, HUSH is ideal for aiding in softening sound and illuminating commercial, hospitality and residential spaces. It is scientifically proven to significantly reduce reverberated noise, creating an ideal and productive environment. The fixture is made from 100-percent polyester fibers with no chemical binders and can ship as a kitset or assembled.

5. Harley Faucet Collection from GRAFF

Conceptualized by GRAFF's G+ Design Studio, the design of the Harley Faucet Collection was derived from the stylings of classic motorcycles, fusing an industrial aesthetic with detail work nostalgic of the all-American icons. The collection includes one-, two- or three-hole versions of the sink and bathtub; wall, floor or deck-mounted models; and a linear lever option, also knurled for a user-friendly handle. A first for the brand, the Harley Collection includes a two-hole lavatory faucet ideal for narrow spaces, as well as powder rooms and laundry rooms.
