## Cabinet journeys from intricate woodgrain to coastal hues

**OMEGA CABINETRY** unveils four textured laminate finishes, two cool-toned color selections and three contemporary door styles. The new finishes—Lake House, Rain Barrel, Pergola and Park Bench—are inspired by a high demand among premium cabinetry customers and the desire for texture that registers on woodgrain patterns for authenticity. In addition to textured laminate, two new blue hues—Amalfi and Dusty Miller—join the line along with three curated door styles: Jax, Kali and Kadey. **Circle 16 on inquiry card**

## Drain kit provides elegant, efficient solution for any job

**LUXE LINEAR DRAINS** offers an attractive, high-performance replacement for traditional center floor drains with its Modular V Channel Wedgewire Drain Kit. Engineered to meet a wide range of residential drain needs, the kit includes a 48-inch Modular V channel, a 48-inch premium Wedgewire grate, two end caps, an outlet joiner and a standard joiner (for coupling two lengths). The drain, constructed of hand-polished 304 grade stainless steel and solvent-weld components, features a variable outlet position for flexible installation within the shower area. **Circle 17 on inquiry card**

## Toilet pairs practicality, pampering in one sleek package

**ICERA** expands its product line with the Muse iWash Integrated Bidet Toilet, which combines cleanliness and comfort with cutting-edge technology. A bowl-cleansing pre-mist is activated whenever the seat is occupied, and an automated flush allows a sanitary touch-free experience. The iWash system can be configured to suit individual preferences, from a heated seat and warm air dryer with adjustable temperature settings to the rear, front and oscillating sprayers with variable positioning. Extra touches include a deodorizer and in-bowl LED nightlight. **Circle 18 on inquiry card**

## Hardwood flooring resists water to deliver protection

**AHF PRODUCTS** introduces Hydropel, a waterproof hardwood flooring from **BRUCE** that brings the beauty of hardwood floors together with durability and ease of installation. Built with a unique core the manufacturer calls “ultra-high-density fiberboard,” Hydropel is infused with proprietary technology to resist water for up to 36 hours so that it can be installed in any room of the home. A premium performance coating protects the hardwood from scratches, scuffs, stains and even indentations for a lifetime of durability. **Circle 19 on inquiry card**

## Metal profiles protect resilient flooring, stairs, wall coverings

**SCHLUTER-SYSTEMS** rolls out Schluter-VINPRO, a line of profiles made specifically for resilient flooring applications. The durable metal profiles provide long-lasting, unobtrusive installations with a sleek, minimalist reveal that blends in with any décor. Schluter-VINPRO is available in three brushed aluminum finishes—bronze, nickel and chrome—that make it easy to complement any resilient covering. The need to wait for the custom manufacturing of a precise color match is eliminated, simplifying the design process and reducing overall project time. **Circle 20 on inquiry card**
