A LOOK AT THE TRENDS, PRODUCTS, AND
TECHNOLOGY THAT ARE DRIVING THE FUTURE

1 The newly redesigned and reintroduced Nexus WASHLET+ toilet by **Toto** comes in one- and two-piece models that sport a modern design with sleek lines and a skirted bowl. The company added a new sensor-operated feature, enabling the unit to auto-flush when the user simply rises and walks away, or it can be manually flushed. Its high-efficiency Tornado Flushing System reduces waste buildup and keeps the bowl cleaner, according to the manufacturer.

2 **Duravit USA** has debuted the ME By Starck one-piece toilet, which has been modified to meet ADA applications. Designed by the renowned Philippe Starck, it boasts a streamlined aesthetic and many design combinations. This model merges the collection's signature slim edge with modern design, and Duravit's Rimless flush technology means efficient, hygienic maintenance. The unit is available in a higher seat height (17 $\frac{3}{8}$ "") with the option of a left- or right-side lever. **Duravit.us** / CIRCLE 857

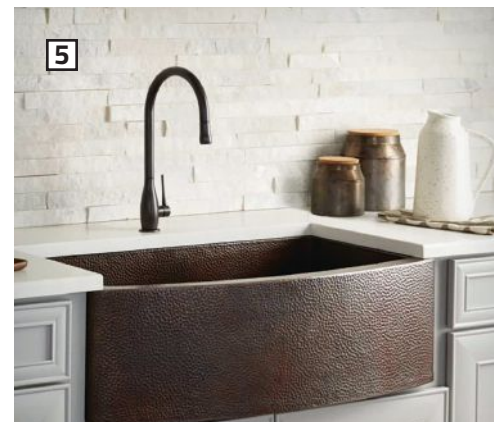

3 **Icera** announces the Muse iWash Integrated Bidet Toilet. It offers a customized experience with features such as a heated seat and warm air dryer with adjustable temperature settings; oscillating sprayers with variable positioning; and two user presets that save

preferred settings. A remote is included. The unit's high-efficiency flush requires just 1.28 gal per flush. A bowl-cleansing pre-mist is activated when the seat is occupied, and an automated flush allows a touch-free experience. **Icerausa.com** / CIRCLE 858

4 **Mansfield Plumbing** has launched the Summit Pro toilet. This addition to the Summit product line features a unique tank; attractive, universal styling; a color match metal trip lever; and five bowl configurations with right- and left-hand tank options. Its tank features the Fluidmaster fill valve and a no-callback guarantee; and warranties on china and tank trim. The unit is certified with 1,000 gram MaP rating at 1.6 and 1.28 water consumption.

5 The new Eir Intelligent Toilet from **Kohler** offers a modern design, gentle curves, and a sloping profile. An optional decorative metal ring around the lid offers a unique finish accent. The model features intuitive, hands-free opening and closing, and hygienic cleansing functionality with adjustable and customizable water sprays for personal cleansing. Eir also offers one-click bowl sanitation and pre-mist; heated seat; and touchscreen remote for personalized control. **US.kohler.com** / CIRCLE 860 **PRO**

1 Moen's new Nio kitchen faucet collection offers customizable features such as handles that can be swapped out with a complementary accent finish of Chrome, Spot Resist Stainless, or Matte Black. Each faucet comes assembled with an alternate handle in a secondary finish option, as well as a pull-down spray wand, which nests inside the spout. The company also offers the Paterson collection in various finishes, available in pull-down kitchen and bar/prep faucet options. [Moen.com](https://www.moen.com) / CIRCLE 861

2 Adding to its kitchen offerings, **hansgrohe** has introduced several versatile new faucets, which makes more personalization of the kitchen possible. For example, there are the Select 2-Spray models in the Metris and Talis faucet collection, as well as new Allegro N and Focus N collections. This move also provides more user-friendly faucets with sprays that cater to specific tasks, plus faucets that come equipped with hansgrohe's QuickClean anti-limescale feature. 3 With its array of faucets and sinks, **House of Rohl** and its portfolio of brands aim to give a fresh look to any farmhouse style. The hand-poured and shaped sinks come in traditional, transitional, and modern styles. The Shaws Classic Shaker Modern Single Bowl Apron

Front Fireclay Kitchen Sink (shown) is a contemporary take on the traditional farmhouse form. The sink is 30"x18" with acid- and alkali-resistant glazed surfaces designed to withstand heavy use. [Houseofrohl.com](https://www.houseofrohl.com) / CIRCLE 863

4 **Ruvati's** Verona Workstation Sink collection combines traditional apron-front design with contemporary stainless steel. Features include a deep stainless steel colander, adjustable roll-up rack for drying dishes, an African mahogany cutting board that fits over the sink basin for prep work, and a rinse grid and drainer basket. The sink comes in single and double bowl configurations; sizes range from 24" to 36". The sink is backed by a limited lifetime warranty. [Ruvati.com](https://www.ruvati.com) / CIRCLE 864

5 **Native Trails** is expanding its recycled copper kitchen designs. The new Rhapsody Sink is available in antique copper and brushed nickel finishes. Made from durable 16-gauge copper, it provides an artistic twist on the traditional farmhouse style. Coppersmiths use age-old techniques to create hand-hammered detailing and a bowed apron front. Added benefit: Copper's natural antimicrobial properties help keep the sink clean. The UPC- and cUPC-compliant sink comes with a limited lifetime warranty.
