## THE ART OF POURED CONCRETE

WHAT ONE CARPENTER LEARNED FROM  
GUTS, GROUT, AND HAPPY ACCIDENTS

**1** Johnson Hardware introduces one of its most-improved products: the 2000 Series All-Steel Split-Stud Pocket Door Hardware Frame. Designed for 2x4 walls, it can support solid-core doors weighing up to 400 pounds. Comes in 16 models for accommodating doors ranging from 1½" to 1¾" thick, and from 30" wide by 80" tall, to 60" wide by 108" tall. If the door is smaller, the frame can be cut to fit. **2** ProVia introduces FineLine Technology, which produces a straight, clean weld line on the corners of Endure Vinyl Patio Doors. It provides a "picture-frame quality" look on the sashes and eliminates the need for secondary cleaning and finishing processes. Comes standard on the firm's patio doors with laminated extrusions, with the option to upgrade on white, beige, and sandstone vinyl. Doors produced with FineLine Technology meet or exceed industry requirements for strength and durability, says the firm. [Provia.com](http://Provia.com) / CIRCLE 855

**3** As part of Marvin Doors' Signature collection, the Modern Multi-Slide Door is designed to provide homeowners with sweeping views and a connection to the outdoors. Numerous configurations and sizes are available. The door's minimalist hardware is designed

for high functionality and features a sleek, modern form; the sill options are flush, performance, and high-performance. These doors are rated up to LC-PG40, and are sized to order in up to 6'x12' panels. [Marvin.com](http://Marvin.com) / CIRCLE 856

**4** Ageless Iron is a new hardware line that includes levers, knobs, plates, and more, and is made to withstand the elements while retaining its attractive black finish. Crafted to be UV and salt resistant, each lockset is a solid, cast-iron piece weighing up to 5 pounds. Its factory-lubricated wear-points and spring-assisted knobs and levers ensure it will last for decades, according to manufacturer Regal Brands. Comes with a five-year warranty. **5** The new Tru&Modern Infinite Rail (TMIR) series offers consumers a sophisticated option for their homes' interior doors. Each door sports kerf cuts or metal inlays that cover its entire width. From traditional to modern, TruStile offers a broad selection of made-to-order interior doors. With all of the stile, rail, and panel products that the company puts through its production line, the goal is to blend modern technology with old-world craftsmanship.
