

PlumberTM

A man in a blue long-sleeved shirt, blue cap, and red gloves is kneeling on the ground, working on a gas meter. He is using a wrench to adjust a pipe connected to the meter. The background is a textured, light-colored wall.

series Wi-Fi enabled monitors. The quick-release docking system is ideal for the new CS6x Versa digital reporting monitor, and the sturdy metal frame provides a solid base that makes it easy to push and retrieve the cable for fast, efficient use. The C40's flexible push cable is designed for small or restricted branch lines with tight turns and shorter runs in main laterals, while the M40's moderately stiff push cable better suits longer runs in mainlines and branch lines. **800-769-7743; www.ridgid.com.**

Subsite Electronics UtiliGuard 2 locating system

The UtiliGuard 2 locating system from Subsite Electronics is a new multifrequency utility locator based on the UtiliGuard system. It uses automatic integrated data capture to provide information that can be used to prove or track performance, compare with benchmarks and provide actionable outcomes to help increase quality, reduce cable strikes and increase productivity. Available in standard and advanced models, an integrated GPS positioning improves accuracy and reporting. An all-new user interface features simplified graphics that are easier and quicker to interpret. It also offers a 5- or 12-watt transmitter that drives signals farther down large, direct-buried utilities. The system also provides both the horizontal and vertical distance to the utility to make accurate locates of obstructed utilities. **800-846-2713; www.subsite.com.**

MTI Baths 6036 shower base

The 6036 shower base from MTI Baths features a cover that conceals an offset drain, which allows the base to replace an original narrower base or tub without the hassle of repositioning the drain plumbing. It's designed to be a solution for both residential and commercial projects, saving time and effort while creating a sleek, contemporary finished look. It measures 60 inches by 36 inches and is crafted from durable Lucite cast acrylic. It is further enhanced by multiple layers of fiberglass, resin, titanium and wood to prevent flexing. Another option allows for factory-leveled bases supported by high-density foam. The base includes an integral tile flange on three sides, a stainless steel or white powder-coated hidden drain cover and can be specified with a left- or right-side drain. **800-783-8827; www.mtibaths.com.**

MasterHaul Power- Loader system

The PowerLoader by MasterHaul allows any person or autonomous truck to load and unload cargo automatically. It can be used on pickups, cargo vans, service and contractor bodies. In addition, its significantly larger carrying capacity can lead to not needing a utility trailer to tow products that do not fit on a liftgate, such as large power equipment, construction materials and pallets. The system can use different attachments called Application Decks to offer other options, including portable storage and contractor bins. **831-425-0800; www.masterhaul.com.**

Keeney Mfg. full soak bath drains

Keeney Mfg. full soak bath drains are designed to offer a deeper, more luxurious bathing experience. The unique push-close overflow feature allows the water to rise to a greater depth than conventional bath drains, and it fits most tubs up to 22 inches deep with a 1.5-inch PVC Schedule 40 tube install. It has a stylish flat Foot Lok drain stopper and is available in three finishes: polished chrome, brushed nickel and bronze. **800-243-0526; www.keeneymfg.com.**

Navien NPN Series noncondensing tankless water heaters

The Navien NPN-U (universal) and NPN-E (exterior) premium noncondensing tankless water heaters are available in 160,000, 180,000 and 199,900 Btu/h models for either natural gas or liquid propane. The water heaters offer NaviTech technology with a stainless steel heat exchanger and advanced stainless steel burner with low NOx level. NPN-U series units offer indoor and outdoor operation within the same unit and include an integrated control panel within the cover. Both the NPN-U and NPN-E have recirculation control built into their circuit boards and are designed with a pin-to-pin matching configuration for easy retrofit installations. Additional features of the series include Wi-Fi remote-control capability with NaviLink, cascade capability with other NPN units, and a sleek, space-saving and lightweight design. **800-519-8794; www.navien.com.**
