◉ THREE-STEP TILE

Daltile's RevoTile is a porcelain tile floating floor system designed for fast installation. RevoTile installs in just three steps: First, place underlayment, no mortar required; second, click tiles together; and third, grout immediately. RevoTile is genuine porcelain and is available in 26 marble, wood, stone, and concrete looks. daltile.com

◉ VANITY WITH STYLE

Adding color to the bathroom is one of today's hottest design trends, and the Muse offers the perfect opportunity to do just that for your clients. Its available finishes include traditional shades like walnut brown, matte white, and matte black as well as more unexpected options like ocean grey, gloss white, and blue (shown). Satin brass trim completes the look and makes a dramatic style statement in any bathroom. The perfect finishing touch is Icera's Carrara marble countertop with matching backsplash, both sold separately. Retail prices for the 36-inch vanity start at \$1,520. For more information about the Muse Collection, visit icerausa.com.

◉ IMPERFECT BEAUTY

The Kintsu bath collection by Brizo, which debuted at 2020 IBS and will be available in the fall, combines the elegant minimalism of Scandinavian design with a motif of broken geometries to channel the Japanese philosophy of wabi-sabi. Faucets are offered with three handle options; the style shown here has an all-metal void design that can be left as is or in-filled with concrete, mother of pearl, or any number of custom inlays. Three finish options will be available: gold, polished chrome, and black onyx (shown), which is designed to balance both shadow and light. brizo.com
