Water Features

THESE GRACEFUL SINGLE-HANDLE GOOSENECKS MARRY FORM WITH FUNCTION

WORDS _Kendra Jackson

GRACELINE
Referencing the streamlined style of the American Modern ocean liners of the 1930s, designer Michael Berman added industrial knurled detailing to his pull-down faucet. It comes in five monochrome finishes and one (shown) that combines matte black with a glam hit of satin gold. houseofrohl.com

CATRIS FLEXO
Updated with a flexible matte black rubber hose and slimmer body, the Catris Flexo faucet effectively straddles the line between industrial and traditional. Available in chrome and stainless-steel finishes, the newly tactile fixture boasts a dual spray function and a built-in aerator to reduce limescale buildup. blancocanada.com

KITCHEN COLLECTION
Bathroom faucet brand Franz Viegener enters the kitchen realm with a collection of elegant gooseneck faucets. Smooth lines, a tilt-out lever, a push-button spray trigger and nine metallic finishes lend the pull-down fixture beauty and versatility. Polished Rose Gold is shown. franzviegener.us

AQUALOGIC OZONE
An ozone generator connects to this faucet to produce a broad-spectrum microbiological agent that kills 99.9 per cent of viruses, bacteria and common food pathogens. Offered in two heights, Aqualogic is made from lead-free brass with a brushed nickel or polished chrome finish. lenovasinks.com

U BY MOEN
Synced to smart home systems, this voice-activated faucet allows for hands-free operation: Start or stop water flow, request temperature and volume measurements, and preset common functions (such as filling a teapot or dog bowl) in the smartphone app. Multiple styles and finishes are offered. moen.ca

Shower Fixtures

1 Rainshower 310 SmartConnect

Available in round or square formats, this shower is operated via remote control for hands-free switching between two spray intensities — relaxing and invigorating — or a combo of both. Attaches to existing shower arms via a standard ball joint.

Finishes StarLight chrome
Manufacturer Grohe, grohe.ca

2 Nebia by Moen

This easy-to-install spa shower uses a patented atomization spray technology that creates the sensation of more water while consuming 45 per cent less than average. It features a height-adjustable slider and optional hand-held fixture with magnetic dock.

Finishes Stainless steel in chrome/white (shown), chrome/matte black or spot-resistant brushed nickel
Manufacturer Moen, moen.ca, nebia.com

3 Studio S Collection

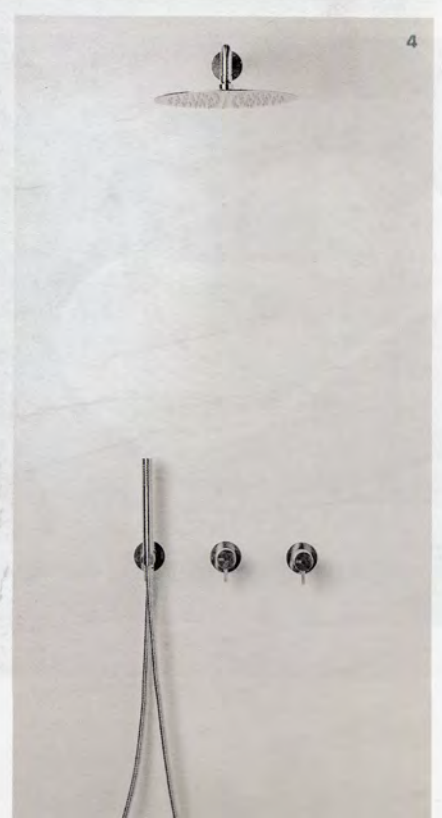

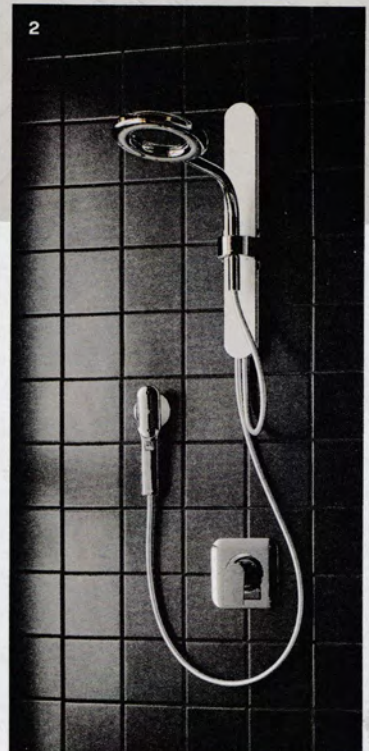

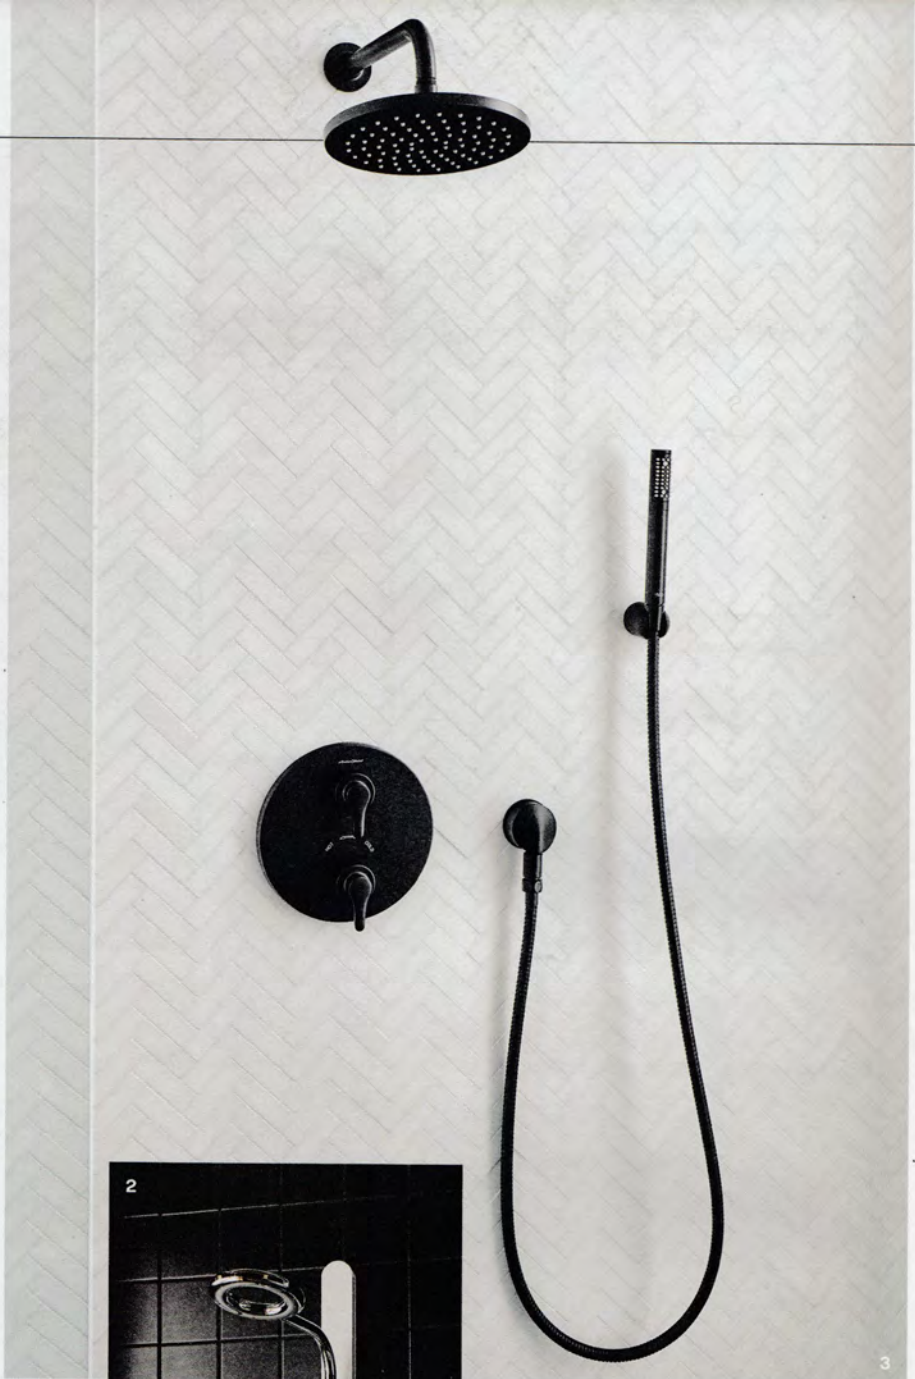

A water-saving feature, pressure and temperature balance technology and a scratch-resistant finish enhance this urban-inspired system's performance and durability.

Finishes Matte black (shown), polished chrome, brushed nickel
Manufacturer American Standard, americanstandard.ca

4 QTOO Shower Faucet

With a shower head and baton hand sprayer, this system offers precise control over water flow and temperature, including anti-scald protection. Suitable for outdoor use.

Finishes Brushed or polished marine-grade stainless steel
Manufacturer QTOO, qtoobath.com
