1 **Americh** has introduced a new brass finish to its Sawyer bathtub. Made in the U.S., the tub is made of actual metal that will patina over time to infuse a different aesthetic to the bathroom. AMERICH.COM

2 **Duka** has reimagined its gallery 3000 range of shower enclosures to include UV adhesive technology that bonds hinges to glass for easy cleaning, as well as wall profile and frameless models. Finishes range from transparent to misty. DUKA.IT

3 **Toto's** UltraMax WASHLET+S550e one-piece toilet boasts a clean, modern design, as well as gentle warm-aerated water and dual-action spray; adjustable temperature, pressure, pulsating, and oscillating features; a warm air dryer; a heated seat; and more. TOTOUSA.COM

4 Designed by Roger Thomas for **Speakman**, the modern Vector bath collection features 13 distinctive bathroom fixtures that celebrate architectural purity with strong lines. SPEAKMAN.COM

5 The Leona basin from **MTI Baths** offers clean lines and gentle curves that bring a sense of balance and tranquility to the bathroom. The uncluttered oval fixture is a semi-recessed model that only allows the top 2 inches of the sink to rest on the vanity. MTIBATHS.COM
