**M** The Belshire Collection Showerhead and Hand Shower Set from **DXV** captures the opulence and glamour of the Art Deco period, reimagined for today. Defined by faceted edges, the elegant shower set is fashioned from solid brass and features precision engineering. The showerhead and hand shower set are WaterSense certified, delivering water-saving capabilities.

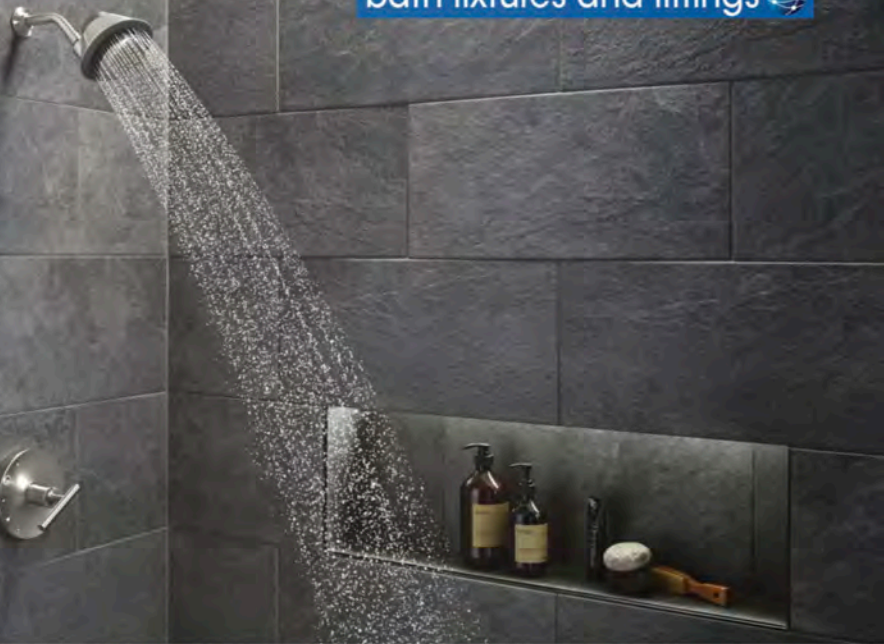

**P Barber Wilsons'**

Mastercraft Concealed Thermostatic Shower Control features a Lever Handle, 2-Way Diverter and coordinating Mastercraft cross handle. Crafted from solid brass, it is offered in the company's standard finishes, along with new finishes of Brushed Gold, Satin Copper, Brushed Copper, Polished Copper, Matte Black, Matte Bronze and Weathered Bronze. The indices are available in white, natural or black ceramic with the option of a matching metal finish.

**M** The Somerset tub from **Americh** delivers a modern twist on a classical shape in a mineral solid surface. The fixture recalls a carved stone bath reminiscent of a Greek revival style, with more contemporary minimized rolled edges. Measuring 64" x 33" x 24", the tub is available in Gloss, Matte White, Americh colors or a custom color.

**M** The **Kohler Moxie** Showerhead + Wireless Speaker features Harman Kardon speakers and comes in an array of finishes. The Moxie showerhead speaker is available in two versions – a Bluetooth-enabled model to pair with a phone or other device, and a model with built-in Amazon Alexa technology for hands-free voice activation. Its magnetic docking system also makes the speaker a solution for music around the house or on the go.

**P** **Native Trails** has tapped the Italian island of Murano for its latest artisan-crafted collection. The Murano line of vessel sinks, made of the famed glass, includes five design series and multiple sink styles, with each hand-crafted to deliver a work of art. Inherently sustainable and fully recyclable, the glass sinks are available in Beachcomber, Abyss, Bianco, Shoreline and Abalone, in multiple styles such as Sorrento, Amalfi, Positano, Lido and Verona. Amalfi Bianco is the sink pictured here.

**M** The S-line system from Easy Drain by **ESS** has a minimalist outward appearance that conceals the drain for a seamless aesthetic. It comes equipped with the brand's patented TAF (Tile Adjustable Frame) and WPS (Water Protection System) to ensure a 100 percent watertight performance. A reversible grate allows for the choice between a stainless-steel trim or an invisible look with a choice of shower tile or natural stone for a seamless finish.
