Why do you think they call it a boilermaker, anyway? p26.

Easy Drain Modulo Stone Flex Shower Drain

Easy Drain has made shower drain installations a whole lot simpler with its Modulo Stone Flex shower drain. The nearly invisible linear drain allows on-site size adjustments to ensure a precise fit. Modulo Stone Flex's frameless design allows for up to 4 inches of adjustment, providing installers with the flexibility they need to finish the job the first time when unforeseen issues arise. Developed to blend effortlessly into stone and marble floors, the Modulo Stone Flex is offered in a range of lengths from 19 to 82 inches, with up to 4 inches of adjustment. Expert engineering ensures efficient water management for a safe and hygienic shower environment after every use. www.easydrainusa.com

Central Brass Touchless Lavatory Faucets

Central Brass has announced the launch of its family of touchless bathroom faucets for commercial and multi-residential properties. The electronic sensor faucets bring together the latest technology and the heavy duty solid brass the company has manufactured for more than 100 years. The new faucets offer a reliable, easy-to-install hands-free option at an economical price that allows contractors and property owners to upgrade current restrooms or spec into new facilities. Key features include an AC/DC control or battery option (UL approved), long battery life, a temperature control mixing valve, a vandal-resistant 0.5 GPM (gallons per minute) flow aerator, and a polished chrome finish. www.pioneerind.com

General Pipe Cleaners Hot Shot Pipe Thawing Machines

Get frozen metal water lines flowing with Hot-Shot 320 and Hot-Shot 400 pipe thawing machines from General Pipe Cleaners. General's compact units safely thaw pipes in minutes – without tearing up floors or walls, digging around pipes in frozen ground, or using hazardous blow torches. The Hot-Shot 320 generates 320 amps of thawing power to thaw up to 100 feet of 1.5-inch pipe – yet weighs just 30 pounds. The powerful Hot-Shot 400 generates 400 amps of thawing power to thaw frozen lines up to 175 feet long and 1.5 inches in diameter. Safety features include thermal overload protection and circuit breakers. Made in the U.S., General's rugged devices also feature heavy gauge steel cases – and carry a two-year warranty. www.drainbrain.com/en/products/hot-shot

Legend T-47NL Undersink Thermostatic Mixing Valve

The T-47NL compression-fitted thermostatic mixing valve blends hot and cold water to provide a safe and consistent water temperature in potable systems. This mixing valve incorporates dual check valves to prevent crossflow and integrated screens to filter out debris while minimizing pressure drops. The T-47NL features an adjustable temperature range which can conveniently be modified using the blue cap. Once the desired temperature has been set, the cap can be removed to accommodate three-port applications. The 3/8-inch compression ends allow for easy installation between stop valves and faucets in point-of-use applications. www.legendvalve.com
