Idea Book

your guide to a beautiful home

◀ **METAL ACCENTS** Clean lines and an array of finish options make the Erika hardware collection from Atlas Homewares a good fit for any kitchen. Cabinet pulls range from three to 12 inches long; 18-inch appliance pulls are also available. Looks vary from brushed and polished nickel to matte black, polished chrome and warm brass. atlashomewares.com

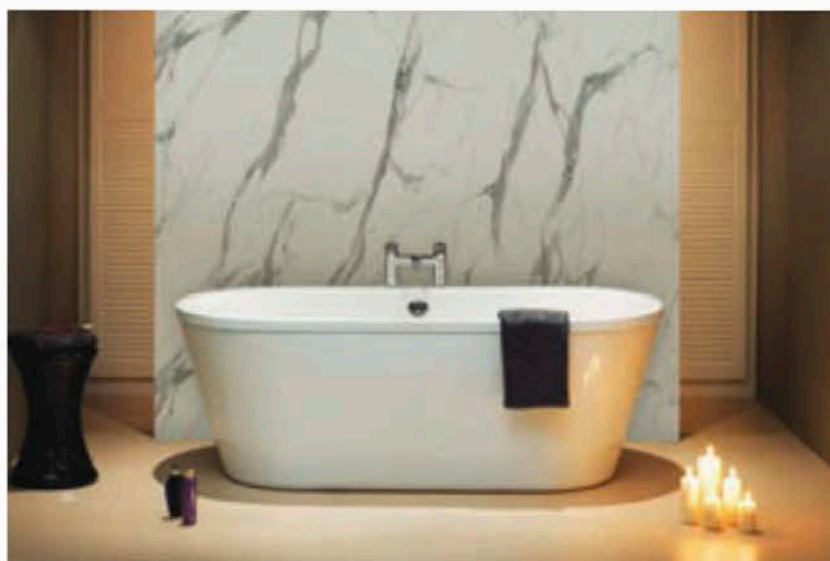

▲ **WATER PLAY** Mimicking the industrial style of theater lights, the SpotWater shower system by Gessi customizes water flow with rain, mist, waterfall and multi-spray options. Homeowners can mix and match these swiveling showerheads, which come in copper, aged bronze, polished nickel and antique brass. gessi.com

▲ **DISH DUTY** Waterstone's Industrial Pulldown PLP faucet is made in California from eco-friendly solid brass or 316 stainless steel. The sleek, curvy fixture boasts an 18-inch sprayer that toggles between an aerated stream and a wide spray. Clients can choose among 32 standard finishes or customize their own options. waterstoneco.com

▲ **SURFACE STYLE** The Wetwall Water-Proof Wall Panel System presents a low-maintenance, easy-to-install alternative to tile and grout. Developed by Wilsonart, the tongue-and-groove panels can be applied in showers, around baths or on accent walls. Available in 17 colors and patterns, they offer antimicrobial protection and scratch resistance. wetwall.com
