NEW BATH & KITCHEN PRODUCTS

THE LATEST PRODUCTS TO HIT THE BATH & KITCHEN MARKET SO FAR IN 2022

Award-winning pro toilet line

In 2021, Niagara launched four new toilet product suites designed specifically to save water with features and benefits for builders, remodelers, plumbing professionals and everyday homeowners – Liberty, Sabre, Shadow and Barron. Niagara was awarded the 2021 EPA WaterSense award for Excellence in Promoting WaterSense Products, the Sustainability, Environmental Achievement & Leadership (SEAL) Business Sustainability Award under the Sustainable Product Award category for its Sabre product line, a Bronze Stevie Award in the Female Executive of the Year category and Niagara is a finalist for the 2022 International Green Product Award in the Interior and Lifestyle category. Niagara's Shadow 0.8 GPF toilet also was recognized as one of the 2022 Sustainable Products of the Year.

Body spray shower system

Designed to transform your bathroom into a relaxing retreat, the Grohe Rainshower Aqua Body Sprays offer rejuvenating and exhilarating elements that exude the pure pleasure of water to soothe the senses with spa-like comfort. Slim and unobtrusive, the new offerings feature a unique combination of power, performance, and design perfection. The low-profile body spray sits flush for a clean look when not in use and once the water is turned on, the body spray pops out to reveal a precision knurled edge that makes it easy to alternate between the relaxing Rain Spray or the invigorating ActiveJet Spray.

Temperature controlled sensor faucets

Bemis Manufacturing Co. launched its Grove series bathroom faucet. Joining the popular FLOW by Bemis line of faucets, the Grove series features a modern design that integrates advanced technology for ultimate convenience, comfort and hygiene – including motion and touch activation, an LED temperature display, and a built-in hand-washing timer. Grove features a digital temperature control/display allowing users to ensure that their water is at the desired temperature for each specific bathroom activity, while the hand-washing timer – similar to timers built into some electric toothbrushes – promotes clean hands and healthy habits.

Connected restroom products

Sloan expands its existing lineup of connected products to include G2 and ECOS flushometers. These flushometers utilize Bluetooth connectivity and advanced technology to enhance maintenance capabilities. The connected products enable facility maintenance teams to wirelessly monitor the health and status of restroom fixtures, troubleshoot issues, easily generate and share diagnostic reports, adjust sensor range and more from the Sloan Connect App.

The Outdoor Shower, by Gessi, a part of its Outdoor Wellness Collection, is a shower system that creates an oasis-inspired experience. Crafted of 316 stainless steel, the shower column rises from its surrounding landscape with a simple purity of design. Its geometric profile is elegant and luxurious with many customizable details, such as adjustable showerheads, special nozzles and four different knurling patterns. Gessi offers the outdoor shower in three lovely finishes – brushed stainless steel, matte black and a rich copper-like Corten.

Smart kitchen faucet

Combining hands-free technology with stunning modern elegance, Moen's new Cia™ kitchen collection offers voice-activation and touchless functionalities. The Cia pull-down kitchen faucet is offered with Moen's Smart Faucet technology which brings added convenience to the sink with the ability to control the faucet without having to touch it. Homeowners can use voice control via a smart home speaker, the wave sensor or the Moen Smart Water App to activate the faucet, dispense specific measurements and temperature, and create unlimited custom presets for frequent commands. The faucet is also offered with Moen's MotionSense Wave technology, featuring single-sensor touchless activation that allows users to turn water on and off with the simple pass of a hand.

Freestanding tub drain

The first product announced as part of L. R. Brands, an Oatey innovation's 1916 Collection, the 1916 Freestanding Tub Drain works with freestanding, island center or offset tubs. When installed at rough-in, it provides simple installation between the P-trap and tub – without needing access from below the floor. The drain's compact size allows it to fit inside 8 in., 10 in. and 12 in. joists; it also fits inside a 4 in. hole saw opening, which makes it a great choice for remodels. Available in ABS, PVC or cast iron with a plastic or stainless-steel flange, this drain is compatible with brass or Schedule 40 tailpieces. It also comes job-site ready, with a pre-installed, tool-free quarter-turn test plug that allows for testing up to 40 feet of head.

Water monitoring system

On average, household leaks can account for nearly 10,000 gallons of water wasted and millions of dollars in property damage every year for U.S. homeowners. Kohler has married its plumbing expertise with Phyn's smart water monitoring technology to deliver smart, home water consumption solutions that monitor water usage and detect leaks, the awareness of which can lead to cost savings and water conservation for homeowners. Through leak alerts, pre-freeze warnings, and tracking water consumption, H2Wise solutions increase home security in the plumbing space.
