product profiles

M The Knob Collection, the newest faucet line from **HamatUSA**, adds an industrial vibe to the kitchen. Designed by Tel Aviv architect Oshir Asaban, the faucet's linear spout is curved and ends at a right angle against a vertical cylindrical head. Completely constructed from premium 316 stainless steel, the fitting is finished with a unique mix of polishing and brushing techniques that result in a warm glow. The collection features single- and dual-handle faucet designs with optional side sprayer and a spout that projects nearly 12" tall. A smaller bar version is also available.

M The Velox K.1800 kitchen faucet brings a modern, industrial vibe to the kitchen with its graceful, high-arched spout and two minimalist-inspired levers. Colorful finish options amp up the drama, with 20 different shades to choose from, ranging from sky blue, army green and deep red to more neutral options like distressed black, steel gray and dark tan. It is part of **Isenberg's** Klassiker Collection, and the company will also create custom colored faucets per request. The Velox faucet is constructed of premium stainless steel with a pull-down faucet and dual-function sprayer.

V The QT-820 kitchen sink from **Karran USA** measures 25"x22"x9" and fits well into smaller sink base cabinets. Featuring a rear center drain, the sink is fashioned from 80 percent quartz and 20 percent acrylic resin and is available in White, Bisque, Brown, Black, Grey and Concrete.
