- **Easy to Clean:** This gas range is easily cleaned by simply lifting the cast iron grates and wiping down the cooktop surface, while the oven features a self-cleaning option that heats the oven's interior to an ultra-high temperature to burn off any food residue.

FOTILE's Slide-In Gas Range was designed to bring convenience to your kitchen. Crafted from stainless steel and cast-iron grate material, the surface is built to last no matter how often you may use the range. For long-lasting durability, sealed burners on the cooktop also help keep liquids or food from getting into burners, helping to keep the oven clean.

The 30" Slide-In Gas Range also features a bottom storage drawer, non-stick oven interior, a child safety lock, and even a large oven window to offer the ability to monitor the cooking process from beginning to end without disturbing the temperature.

Kitchens are often the busiest room of the home, highlighting the importance of installing a high-quality gas range. The Slide-In Gas Range's large cooktop surface and precise burner control is perfect for cooking multiple dishes at once without sacrificing the quality of the meal – and the even heat distribution allows for the food to cook consistently without the risk of burning throughout the process.

FOTILE's 30" Slide-In Gas Range RLS30506 is currently available for purchase on FOTILE's website for \$1,599.

NEW IMAGINE FAUCET FROM HAMATUSA OFFERS A STYLISH SPLIT FINISH

Mixing metal finishes is an on-trend design choice that is rapidly gaining popularity, particularly when it comes to the kitchen. HamatUSA is on the leading edge of this movement with their new Imagine Faucet which features a striking split finish that pairs an array of today's most requested metals. It's a perfect solution for those who can't decide between favorite finishes. The beautiful contrast of warm metals with cool ones, or glossy finishes with mattes, brings dimension and interest to the kitchen and creates an illusion of texture that makes this singular faucet a most memorable design centerpiece.

Measuring just over 17" in height, the Imagine Split Finish Faucet has a sophisticated style with elegant lines and graceful curves versatile enough to complement any décor. The kitchen faucet is offered in five distinctive finish combinations with the

body of the faucet done in one finish and the handle and concealed spray head in coordinated contrast. Options include Antique Copper with Matte Black, Brushed Nickel with Matte Black, Matte Black with Matte Gold, Matte White with Matte Gold, and Matte Gold with Matte White. Each faucet is meticulously finished using a combination of the brand's advanced PVD technologies and electrostatic powder coating for years of lasting beauty.

The Imagine Split Finish Faucet is designed to meet the needs of today's busiest home kitchens. The dual-function pull-down spray head is neatly concealed when not in use and includes an extendable hose that will easily reach all edges of the sink and beyond. The faucet is constructed of premium solid brass and features hybrid stainless steel and nylon hoses for added durability. This remarkable faucet is a smart choice for remodeling and DIY projects with the brand's QuickConnect system and oversized deck mounting locknut for easy installation. As with all HamatUSA designs, the Imagine Faucet is fully certified, code compliant, and covered by a Limited Lifetime Warranty. Retail pricing starts at \$1,254. Single finish versions start at \$946 and bar faucets are also available starting at \$837.
