IMPROVING YESTERDAY FOR TODAY

PROVIDE OUTDOOR TV ENTERTAINMENT

Transform an outdoor space with SunBriteTV's all-weather outdoor televisions. SunBriteTVs are equipped with a powder-coated aluminum exterior that helps protect the TV from extreme temperatures, harsh weather elements or even a flying drink. With a glare-reducing 4K LCD screen, the TV's brightness can be up to three times higher than many indoor TVs. In addition, all SunBriteTVs are designed for permanent outdoor installation, allowing users to keep their TV up year-round. With three series of televisions, SunBriteTV has a solution for any installation: The Veranda Series is designed for full-shade installations; Signature Series is for partial-sun areas; and the Pro Series can be installed in full sun.

PARTNERSHIP MAKES DECK INSTALLATION EASIER

CAMO and Fiberon are partnering to offer Fiberon EDGE, EDGEX and STARTER Clips to Fiberon's entire dealer network. The clips are all warranted for use with Fiberon grooved-edge deck boards. Both EDGE and EDGEX Clips eliminate the need for partial installation. EDGE Clips (90-degree deck patterns) hug the joist while EDGEX Clips (any deck pattern) fit in the board groove, allowing contractors to set multiple rows of boards and clips in place before fastening with the NEVER-MISS Guide included in every pail. STARTER Clips offer a fastener-free deck surface that is easy to install. For five times faster installation, contractors can use CAMO LEVER board bending and locking tools and the stand-up CAMO DRIVE tool, both available through Fiberon distribution partners.

FILL A BATHTUB IN LESS TIME

Isenberg high-volume waterfall tub fillers fill a bath with less wait-time. The calming sights and sounds of the rushing water help to turn an everyday bath into a restorative spa-like experience. As part of Isenberg's popular Cascade Collection, these waterfall tub fillers bring a modern aesthetic to the bathroom. Their shelf-style design functions as a storage space for hosting soaps, bath salts and other necessities. The fillers are available in two configurations: The wall-mounted filler design features solid brass construction and flow rates of 10 to 11 gallons per minute while the deck-mounted version is crafted from stainless steel and has a flow rate of 10 gpm. Both are offered in 24 finishes.

REFRIGERATION DRAWER OFFERS FIVE MODES

Fisher & Paykel's CoolDrawer features a Variable Temperature Zone that lets users change between five different food modes: refrigerator, freezer, pantry, chill and wine. The compact upper storage tray is a suitable place for sensitive foods, such as peaches, cherries, cheeses and deli items, while the tall bin was created for large bottles and containers. Pantry Mode provides a solution for foods you didn't previously know what to do with, and Wine Mode allows connoisseurs special settings that preserve and present wine at its optimum temperature. Chill Mode sets the compartment to a temperature for highly perishable meats, poultry and seafood while Freezer Mode is set at 0 F for long-term storage. Front panels and handles can be stainless steel or customized to match kitchen cabinetry.

GENERATOR'S COMMERCIAL-GRADE ENGINE POWERS WHOLE HOME

Briggs & Stratton's PowerProtect 26kW Standby Generator is powered with a commercial-grade Vanguard engine for reliable, clean power and is designed to keep a whole home running

no matter what caused an outage. Low Idle Mode allows the 26kW unit to be 70 percent quieter and more efficient during the 15-second weekly test cycle. Its tool-less panel makes for easy accessibility, installation and maintenance. Internally, these units have an improved component layout for optimal operation and access. A high-output alternator, Super High Output Vanguard engine, as well as Capacitive Discharge Ignition coils allow this unit to produce the most power available on the market. Convenient hookups for liquid propane and natural gas provide flexibility in determining where and how the generator is installed.

SIDING PROVIDES INSULATING POWER

CraneBoard Solid Core Insulated Siding by Westlake Royal Building Products is a composite siding product designed to have more insulating power without sacrificing the look of cedar siding. In fact, the Neopor insulation in CraneBoard siding provides up to 19 percent better R-value than regular foam insulation, depending on the profile. The product is available in D7, T6, Board & Batten, Q4 and Q45DL profiles. The siding, which can withstand hurricane-force winds up to 160 mph, is termite resistant and won't warp, buckle or sag. It is manufactured from recyclable materials with 50 percent less impact on the environment than fiber cement.

KITCHEN FAUCET IS DESIGNED FOR ERGONOMICS

The KANTA Dual Function Kitchen Faucet from HamatUSA features KANTA's signature sweeping shape juxtaposed with select PVD finishes against a soft silicone sleeve for an ergonomic design. The fixture works as a rotating faucet while seated in the base and as a fully hand-held faucet when removed. KANTA has an extendable reach, features push-button activation, an integral rotating dial for temperature control, and a dual-spray that allows for seamless switching between spray and regular waterflow. KANTA is available in six finish combinations, including brushed brass, brushed nickel, polished brass and polished chrome (with black sleeve) and brushed nickel and polished chrome (with silver sleeve). KANTA features a 1.75 gallon per minute maximum flow rate.

TILE COLLECTION FLOWS FROM INDOORS TO OUTDOORS

Embrace a new way of creating a stylish, serene and stunning haven by creating an aesthetic that flows from indoors to out. MSI's corresponding Indoor and Outdoor Tile Collection provides a broad range of floor tile, pavers and stacked stone panels in colors ranging from classic to contemporary. The Rockmount + Paver Collection offers a dynamic array of stacked stone panels and matching pavers to deliver a seamless interior/exterior look. A range of textures and colors in natural stone and porcelain creates spaces that speak to unique styles and carry through from room to room to out the door. From floors, patios and walkways to fireplace and barbeque surrounds, planter walls and backsplashes, this collection enhances design. Available in LVT, Stacked Stone & Pavers, Caldera, Concerto, Livingstyle, Praia and Legions.
