Getting a leg up on the competition requires staying ahead of the curve, not only on best business practices, but also on top products. Each year, *Pro Remodeler's* editorial team tallies up reader engagement for the building materials, tools, fixtures, fittings, and finishes that have appeared in the magazine over the past 12 months. The items that garnered the most interest are awarded a spot on the highly competitive Top 100 list.

To make reading it more manageable, the products are grouped into categories. Reader service numbers included with each product write-up allow you to request info if you want to find out more.
