Gold Standard

The Ariaso Stainless Steel Sink Collection from Ruvati will make any bathroom stylish and unique. Install it with a marble or granite countertop, and you have the perfect harmony of steel and stone. Available in luscious satin gold or an elegant gun metal black, the arc-shaped bowl adds a modern touch to the sink and allows proper drainage. The Ariaso collection is constructed of thick 16 Gauge T-304 Grade Stainless Steel that will never rust or tarnish. And Ruvati's innovative nano-PVD color finishes are incredibly durable, offering a matte texture that is naturally resistant to fingerprints and stains that will never peel off. Now customers can match their sink to cabinet hardware, lighting and faucets for a beautifully cohesive design space. www.ruvati.com

Luxe in Limestone

Kindred Outdoors and Surrounds announces its line of Indoor Fireplace Surrounds featuring 10 pieces designed in a wide variety of architectural styles. The handcrafted designs use a special finishing process that creates the authentic appearance of natural carved limestone. Each Indoor Fireplace Surround is created using a proprietary blend of limestone aggregates, minerals, natural pigments and special bonding agents. The material is applied by hand, layer-by-layer, which creates natural color and texture variations and ensures no two surrounds are exactly alike. The Indoor Fireplace Surrounds include legs and a mantelpiece to frame the fireplace and elevate the room. They are available in four colors designed to represent the types of natural limestones found across France and other parts of Europe, including Black Sand, Aged Teak, Oak Barrel and Oyster Shell, and can be finished in either a smooth Honed or textured Travertine. www.MyKindredLiving.com

Pebble-Inspired

Caesarstone introduces the Pebbles Collection that features five designs that celebrate the never-ending transformation of wind and water over stone. The new Pebbles Collection embodies the bigger essence of small stones. A palette of warm, dynamic monochromes is laced with softer hues and enriched by distinctive textures that are inspired by the everlasting path of the pebble, bringing the blessings of sunlight and rain into the heart of the home. Like all Caesarstone surfaces, these new designs are the ultimate combination of nature and technology: premium, high-quality material that is nonporous, durable, flexible, scratch and stain resistant, mold and mildew resistant and lower maintenance than other natural surface materials. Caesarstone surfaces never need sealing. www.caesarstoneus.com

Decorative Drains

Infinity Drain, the manufacturer at the forefront of architectural and decorative drains, introduces their new Center Drain Pro-Series. Backed by the engineering of Infinity Drain, the new Center Drain Pro-Series delivers a competitive price point without skimping on reliability or distinctive design to cover a wide variety of finish, style and install possibilities. The Infinity Drain Center Drain Pro-Series comes in four 5" x 5" styles including LTD 5 Tile Drain, LSD 5 Solid, LQD 5 Squares and LND 5 Slotted. Each style is available in five finishes including: Satin Stainless, Polished Stainless, Oil Rubbed Bronze, Satin Bronze, and Matte Black. Compatible with both Traditional and Liquid/Fabric modern waterproofing methods.

Wet-Rated

Amba Products, a top U.S. distributor of heated towel rack systems, has introduced the Jeeves Wet-Rated Kit. A UL-certified upgrade kit designed for installation of any Jeeves Collection towel warmer in wet areas. After becoming a staple throughout Europe many years ago, wet rooms are finally gaining traction in the United States. American consumers are looking to make their bathrooms more functional while adding touches of comfort throughout. The Jeeves Wet-Rated Kit will allow homeowners to install Jeeves heated towel racks not only inside wet rooms but in shower alcoves and walk-in shower stalls as well as above bathtubs - further contributing to the luxury and warmth of the bathroom.

Waterfall Sensation

The Curve faucet from Isenberg is refreshingly simple yet immediately memorable. Its sleek horizontal lines encompass a gracefully arched spout that extends away from the wall and water streams through the curved linear spout to culminate in a beautiful waterfall effect. Created in the Isenberg Design Lab in Dallas under the direction of Prakhar Kumar Jain, the Curve is offered in two variations, one with hands-free sensors and the other with deck-mounted handles. There are even models facing left or right. In addition to traditional finishes like chrome, brushed nickel and matte black, Isenberg offers 20 ceramic-based color options, including navy blue, crimson, bright green and matte gold.
