AMAZING FIRECLAY

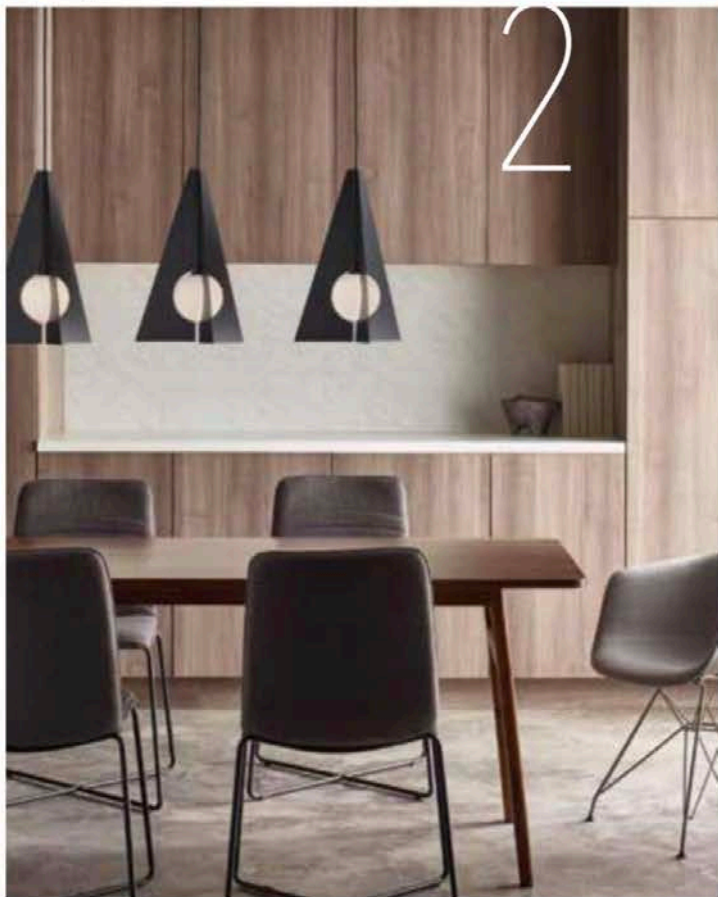

For centuries, fireclay clay has been celebrated for its strength and practicality in European kitchens. Made in Italy by skilled craftsmen, Fiamma® by Ruvati commands respect for its beauty as well as durability. Now Ruvati brings this timeless farmhouse classic to the modern American kitchen. northernstone.com

We love our kitchens. They are absolute and required. We cook, converse, fuel our bodies and jettison ourselves from there, prepared for the day ahead. They have the power to give our households focus and direction. Regardless of the type of home you live in — large or small — no home is complete without one. As our lifestyles have become faster-paced, we congregate there to work, cook, meet and entertain. Life is lived in our kitchens, and they are being designed to be multifunctional living spaces. More thought is being given to the natural flow of people coming and going from them. Not all kitchens are perfect, however; and we love to imagine creating an ideal one. No matter where you are on the spectrum of culinary expertise, Inspired Home has discovered amazing products and trends you're going to love! Enjoy!
