Party Time

Lenova has recently upgraded its popular Entertainer Sink, a compact design that packs impressive practicality into a small amount of space. Perfect as a prep sink in a large kitchen or as a smart addition to a wet bar or outdoor kitchen, the Entertainer serves multiple roles and makes throwing a party more fun for everyone. Lenova designed the Entertainer to work hard before, during and after the party. As a fully functional sink with its own colander, this rectangular basin is a great spot to prepare veggie trays and appetizers with an included cutting board that cleverly conceals everything when not in use. The Entertainer also comes with a wine cooler attachment and three condiment trays, transforming the sink into a refreshment center. After the fun is over, the Entertainer assists with clean-up efforts. Its sleek undermount design allows for a quick swipe of the countertops, and dirty dishes may be left to drip-dry on the drain board. www.lenovagroup.com

Not-So-Standard

Pantone's Color of the Year for 2023 is Viva Magenta. In honor this new energetic color, Elmira Stove Works presents its NorthStar retro appliances in Viva Magenta. Combining time-honored craftsmanship and modern performance with statement-making style, Northstar appliances from Elmira Stove Works bring bold, beautiful lines and a vibrant pop of color to mid-century, retro, farmhouse and contemporary kitchens. Available in nine "not-so-standard" vintage-inspired colors and unlimited custom colors, and featuring distinctive chrome accents. www.elmirastoveworks.com/northstar
