Massive Moxie

EXPERT CONSTRUCTION, SUPERLATIVE ARCHITECTURE, AND ON-POINT DESIGN ADD UP TO A WINNING TRIFECTA AT A MODERN MARVEL OF A HOME IN SOUTHWEST FLORIDA

ABOVE: The teen daughter's bedroom features natural elements combined with earthy textures such as the stacked tile panels made from reclaimed and upcycled wood flanking the bed.

RIGHT: In the primary bathroom, a custom panel by Alex Turco with three-dimensional crystals is backlit for phenomenal evening impact.

"A playful undertone erupts through color, line work, and a complex mixing of materials," says interior designer Kim Collins. "You can see how the vibrant personality of this family shines through each room, but carefully allows the art to lead the conversation."

"The home's back exterior was designed to maximize the gorgeous views of the lake," says Gulfshore Homes' Matthew Shull. The various seating areas feature furniture by Dedon and Vondom.

Chandelier – Sonneman, Lighting First, Bonita Springs, FL
