TRANSFORM YOUR KITCHEN AND BATH space in a *bold* way with these newest fixtures and fittings designed to make a dramatic statement while also offering superb function with attention to wellness. Imagine a pull-out kitchen faucet in Pantone's Color of the Year — Viva Magenta — to add the extra wow factor! Or a very modern design featuring an orange hose with a sleek black finish for extra drama.

These stylish products were designed to create a beautiful, liveable and modern space. Bold chef-inspired kitchen faucets from Italy, dual vanities from Britain and sensual freestanding tubs from Spain offer a global perspective with designs that excel in luxury. Leading manufacturers in the high-end plumbing industry offer innovative designs destined to be treasured additions to the home for many years to come.

Here's a sampling of the coolest new design interpretations sure to inspire your creative spirit!

Viva Magenta in the Kitchen

Celebrate a new year full of joyful possibilities with the dramatic Ziel kitchen faucet by Isenberg, now offered in a dazzling

shade of magenta in honor of Pantone's 2023 Color of the Year. The Ziel K.1360 faucet is a versatile choice for today's busy kitchens. Its modern aesthetic is sleek and industrial, while its high-arched spout adds a sense of elegance and refinement.

Crafted from premium 316 stainless steel, the Ziel is thoughtfully designed with a 360-degree swivel spout and 18 inches of pull-out hose for maximum reach and accessibility to all areas of the sink. The faucet is a deck-mounted design with single-hole installation and includes a dual-function sprayer and matching soap dispenser.

Isenberg offers Ziel with its full range of color finishes, including 20 beautiful options to choose from. Possibilities range from navy, crimson and sky blue to army green and gunmetal gray. All thin-film, ceramic-based finishes are oven-cured and finished to perfection for a remarkably durable product that is eco-friendly and highly resistant to corrosion, scratches and chips.

Silky Smooth and Contoured to Sophistication

Acquabella ushers in a new era of bathing with its asymmetrical freestanding tub

The Ziel 1360 from Isenberg Faucets

Acquabella's Serena bath

Ruvati's Dual-Tier Nova workstation sink

creation, the Serena. A softly contoured tub with graceful curves inspired by undulating ocean tides, this beautiful bath is a brilliant pairing of traditional elegance and modern innovation. Measuring a generous 67 inches by 29 inches by 32 inches, Serena has been thoughtfully designed to cradle the bather in singular comfort.

The Serena bathtub is crafted from Acquabella's signature Dolotek material, a mineral composite, resulting in a flawless finish that is silky smooth to the touch. Dolotek offers the added benefit of providing an antibacterial surface that is easy to clean, amazingly durable and resistant to UV rays and thermal shock.

The tub is offered in a snow-white standard finish and includes options for a striking dual-tone look with pairings in brown, light grey, dark grey and black.

A Prep Sink for the Busiest of Chefs

Ruvati elevates the popular workstation sink to a singular level of stylish sophistication with its new Dual-Tier Nova Collection. Available in 33-inch and 45-inch configurations, the Nova sink brings impressive functionality to today's kitchens.

A stacked pair of tracks allows accessories to slide into place as needed for prep, serving and clean-up in one compact space. The accessories are made of an

extremely durable black composite mix of resin and wood fiber, creating a weather-resistant and dishwasher-safe surface.

The Dual-Tier Nova Collection has been thoughtfully designed from top to bottom. The brand's innovative one-inch SlopeBottom ensures all water and debris streams easily toward the drain, while a stainless-steel grid protects the bottom of the sink from impact and scratches. An offset drain may be installed on the right or left side to allow for maximum under-sink storage.

A beautiful commercial-grade brushed finish is easy to clean and blends well with other appliances. The Nova is crafted from 16-gauge, premium T-304 stainless steel that will never rust or stain.

Kitchen Design Elevated

Elevate the kitchen with new 316 Kitchen faucets, part of the Art for Chef's Collection by Gessi. The 316 Kitchen Collection is comprised of *Mechanica* models clad in woven metal textures and *Flessa* models with a smooth, sleek base. Both models offer all the functionality any chef could dream of.

Swiveling spouts and pull-out sprayers provide an exceptional range of movement and feature a push button to easily switch between a forceful jet spray and a softer aerated flow. The collection is crafted from stainless steel and available in a variety of beautiful finishes, including chrome, matte black and brushed variations of nickel, steel, copper, brass and warm bronze. The hoses are available in standard black, grey, white or orange to add a pop of color.

England Presents its Finest with Double Washstands

The new, sleekly engineered Chelsea Double Washstand package from The Sterlingham Co. is destined to be a beautifully practical piece in any decor. Crafted from solid brass, it features a marble slab with a stunning upstand that showcases the Chelsea edging and is finished with a British-made white vitreous china bowl.

Standard finishes include polished brass, polished chrome, polished or matte nickel, antique gold, copper and various

Gessi's 316 kitchen faucet collection

shades of bronze with optional distressing. Marbles offered include Carrara polished (pictured), Carrara honed, Arabascato and Nero Marquina, and come with one-, two-, three- or no-tap holes.

When it comes to kitchen and bath design, it's all about making things interesting while also functional. These new fixtures and fittings will add a special beauty to your living space — a joyful celebration of design at its finest. ♦

Ion® 30/35 ACi+ Series

Premium Dual Source AC Sump Pump Backup System

1. Primed for High Performance Backup

1/3 HP BA33 or WC33 sump pump options serve as an automatic backup in response to power loss or high water.

2. Power Loss Protection

When power is available, the battery backup system bypasses the battery and runs off standard AC. When power is lost, the inverter converts the DC battery to AC.

3. Ion® Digital Level Control & Alarm

Reduces cycles and extends pump life with its high-volume water removal efficiency. LEDs signal system metrics; audible alarm notifies when water exceeds high level setting.

ARE YOU PREPARED?

Power outages and flooding can happen in the blink of an eye. Give peace of mind with the Ion Dual Source AC Backup Systems.
