FAUCETS WITH FRESH COLOURWAYS, MIXED METALS AND INDUSTRIAL SHAPES EXPRESS UNIQUE STYLE
BY _Kendra Jackson

ONE X FP5

One of three new handle options for **Kallista's** One collection of minimalist faucets, tub fillers and shower systems, FP5 introduces pops of postmodern colour as well as a dose of Hollywood Regency glam. The flower-shaped decorative levers of the solid metal faucet (which comes in five signature finishes) are energized with three powder-coated pastel hues — pink, blue and cream — that are at once whimsical and sophisticated.

ORIGINI

Divided into five "triads" of colour, material and finish, the Origini collection from **Gessi** references archetypal forms of the past to introduce new personalities to the bathroom. The monochromatic Origini Warm, for example, mixes warm and dark bronzes with soft pink, while Accent balances glossy ochre with matte black and brushed brass. Also offered in Neutral, Materic and Nature, the series comprises basin and bath mixers, spouts, showerheads, shower columns and accessories.
