Setting the Tone

LOUIS VUITTON CHECKS OFF ANOTHER BOX WITH THE RELEASE OF THE BRAND'S FIRST TABLEWARE COLLECTION

As forward-thinking as the brand can be, Louis Vuitton's first tableware collection strikes a traditional note. Featuring three distinct lines crafted in Limoges porcelain, the collection celebrates LV's monogram flower in a white-and-blue color scheme. Crystal makes an appearance in the form of the Twist glass, which gets its name from the swirling pattern at the base of its silhouette. The collection covers everything from dinner plates to decanters. us.louisvuitton.com

Rinse and Repeat

Ruvati is dedicated to making the good life even better. Case in point: the brand's new Ibiza collection of sinks specifically created with wet bars in mind. These sleek engineered contraptions feature a built-in glass rinser for quick cleaning of everything from coffee mugs to wine goblets. Additionally, the sink comes with a wood cutting board that spans the width of the basin to instantly create a prep area and allow glassware to drip-dry in the rinse grid safely. As expected, the sinks are constructed of top-of-the-line 16-gauge stainless steel that's guaranteed to never rust or stain. ruvati.com
