AN ARCHITECTURAL MARVEL ON SAN MARINO ISLAND MERGES A MUSEUM-QUALITY
ART COLLECTION WITH THE WARM COMFORTS OF MODERN LIVING

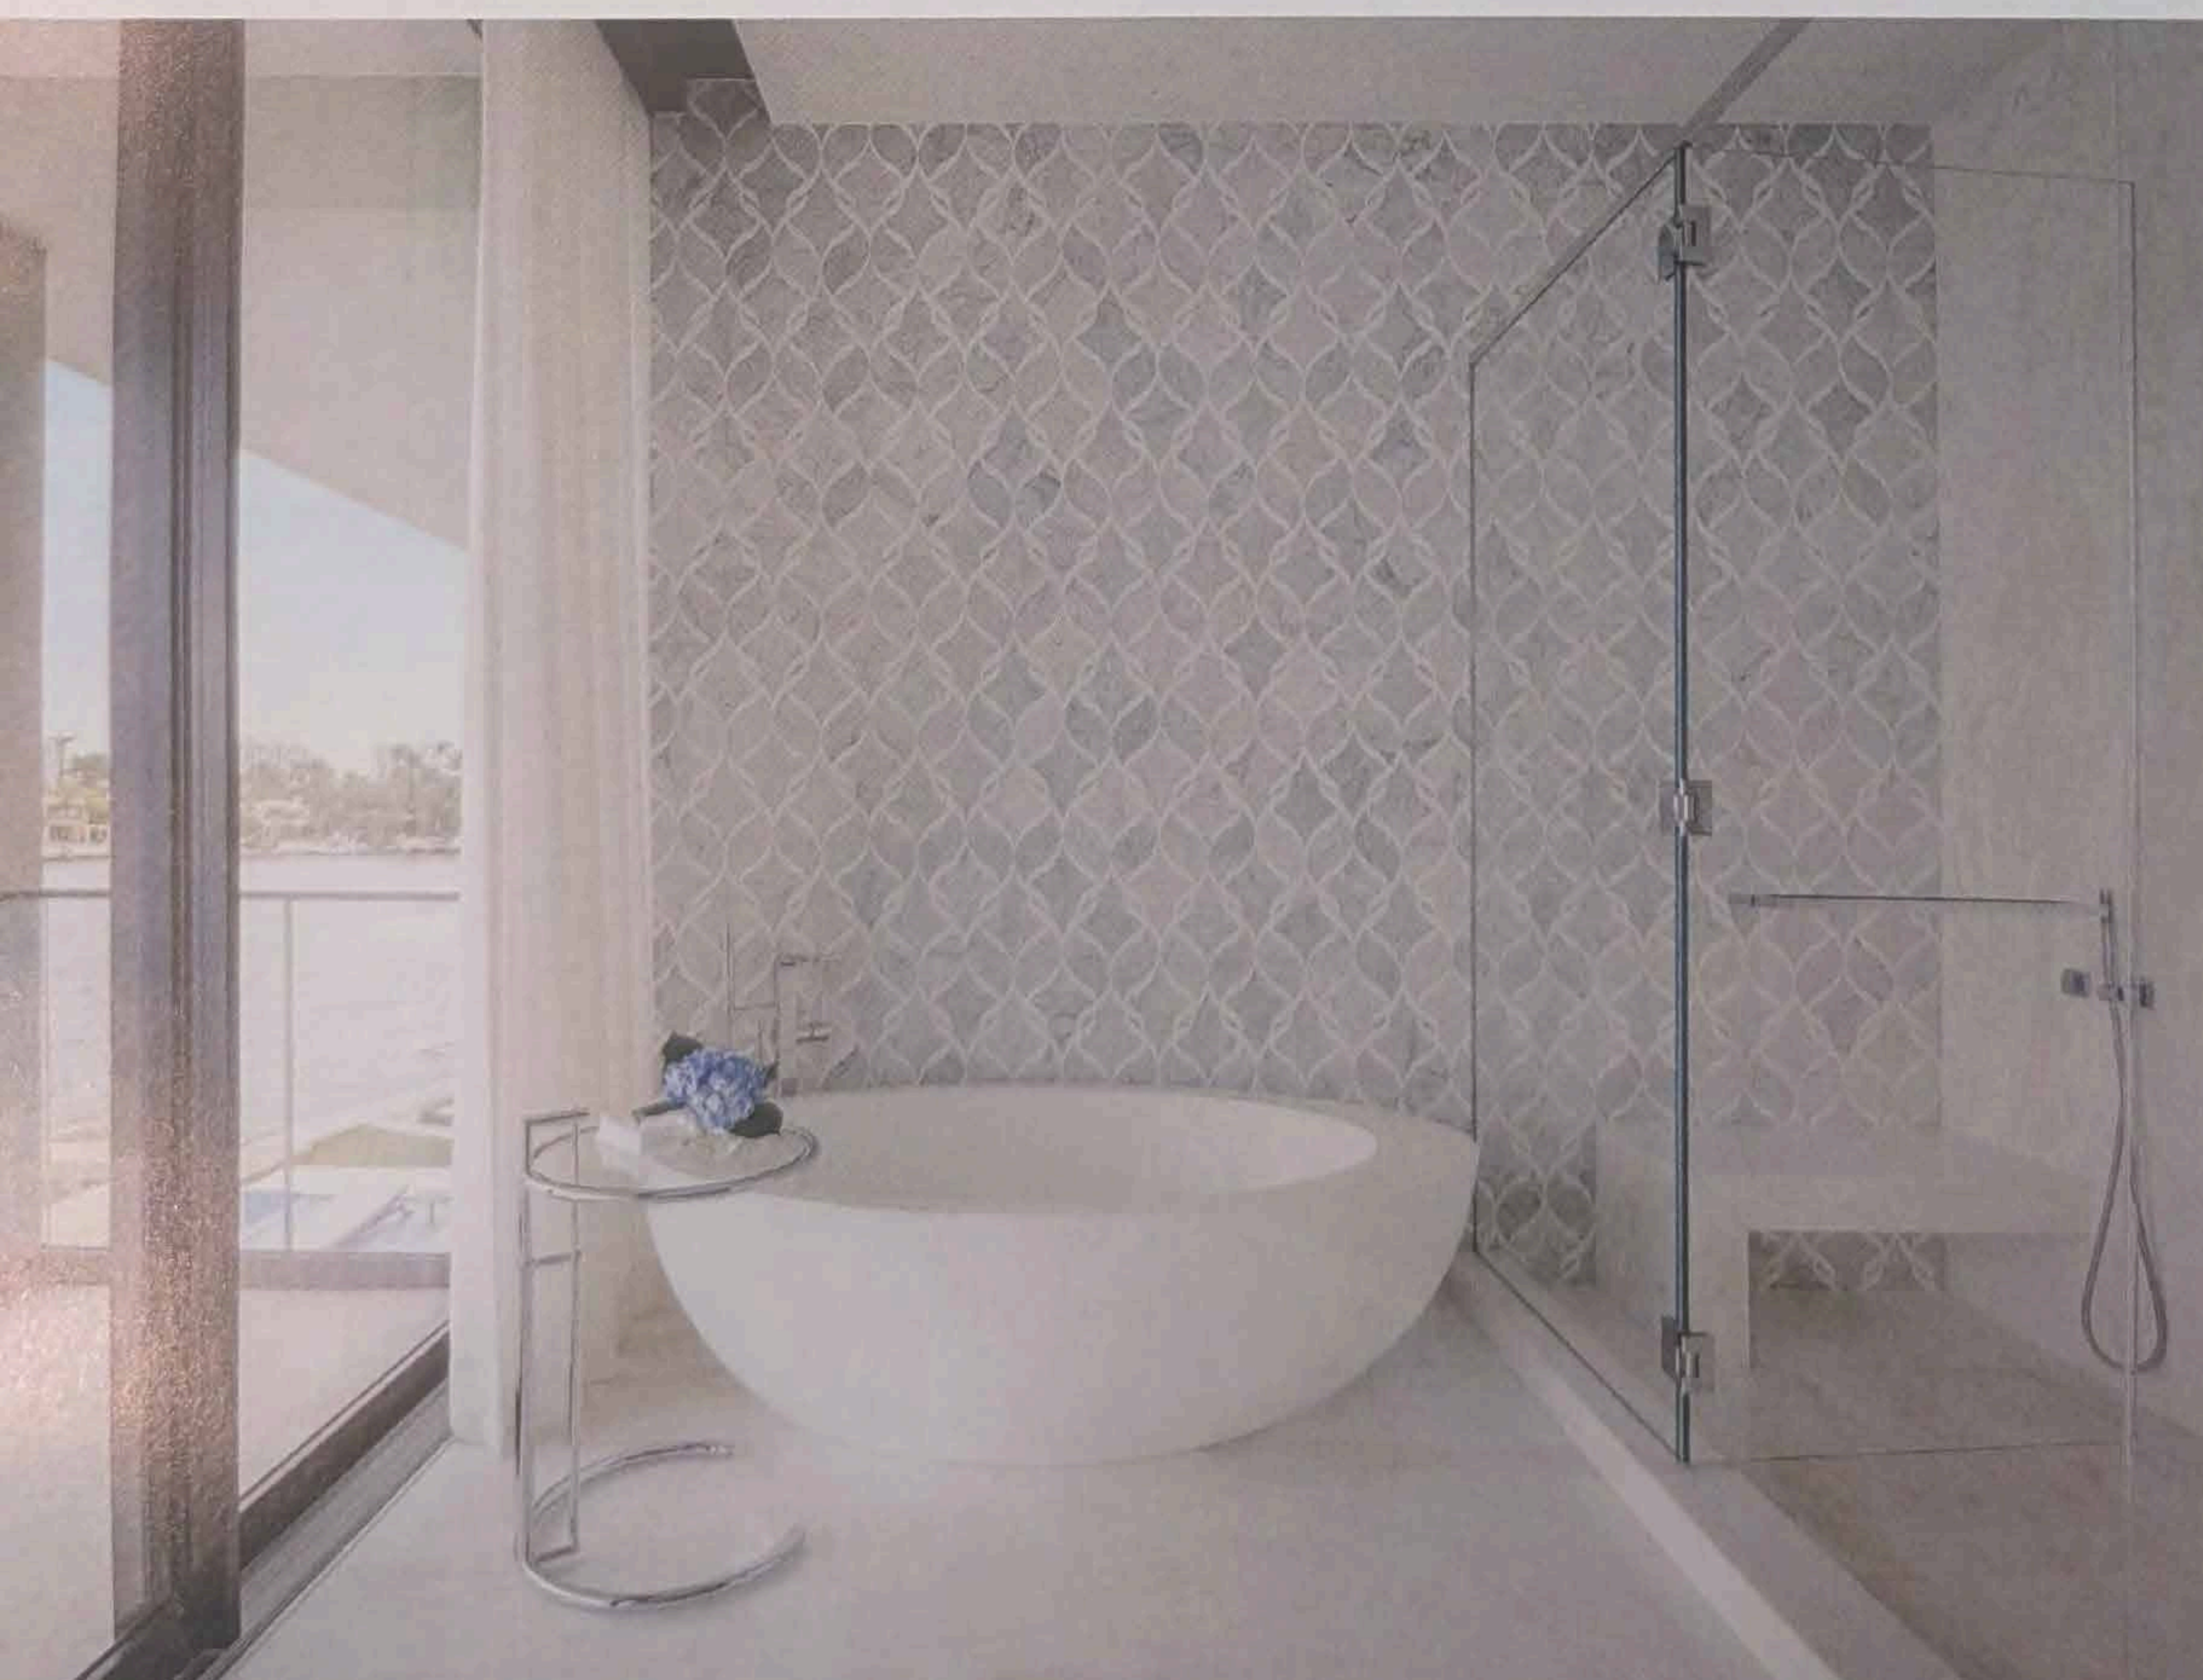

ABOVE: The primary bedroom suite includes a luxurious shower spa clad in elegant Opustone marble. The shower door opens onto an outdoor deck area with idyllic views of Biscayne Bay.

ABOVE: The primary bedroom features a well-appointed collection of high-end Italian furnishings from Anima Domus and lounge seating from Cierre Imbottiti. An aerial beach scene by photographer Gray Malin infuses color into the space, and a statement chandelier from Atelier Alain Ellouz crowns the room with a luminous halo of alabaster and rock crystal.

LEFT: A lavish white round soaking tub from MTI Baths offers a therapeutic respite outside the primary shower. Patterned Opustone tile backdrops the relaxing vignette, taking color cues from the calming waters outside.
