1. From HÄCKER KITCHENS, the Rattan cabinet front features a multi-layer wood veneer, pressed to achieve its distinct woven relief. The wood-based panels feature real wood edge-banding veneer on all four sides, and rounded edges further enhance the design, offering a tactile transition between surfaces. In oak, walnut and black oak. HACKERKITCHENS.US

2. REHAU introduces the enhanced RAUVISIO shade super-matte PET surface line, a sustainable and cost-conscious decorative solution for millwork and cabinetry. Features include a refreshed color palette and an eco-friendly design, made with up to 80% recycled material. The double-sided boards measure 4-feet by 10-feet and are available in six colors. NA.REHAU.COM

3. Designed by 13.1 Design and **SCIC ITALIA**, the Atrium Kitchen is conceived as an ethereal, chameleon-like architectural element. The marble countertops and backsplashes contrast with the mirrored cabinet fronts, resulting in a thought-provoking balance of solidity and lightness. SCIC.IT

4. From **BELLO**, the Flutello Tub is available in through-color construction as well as split finishes. Its composite material is soft to the touch and retains warmth. Toe-tap drains are also crafted from the Bellocast material. BELLOUSA.COM

5. Designed by Pierattelli Architetture for **OFFICINE GULLO**, the Cocktail Cabinet combines warm Canaletto walnut with Carrara marble. Organizing features include a pullout shelf lined with faux leather and two upper drawers, one holding a built-in ice bucket. US.OFFICINEGULLO.COM

6. New from **DURAVIT**, the DuraSquare Collection of faucets adds a touch of modern cubic design to the bathroom. WaterSense certified, the 1.2 GPM tap has an adjustable aerator for splash protection. Available in wide-spread and three single-lever heights in chrome, brushed-nickel and matte-black finishes. DURAVIT.US
