Rinse and Repeat

Ruvati unveils patent-pending Ibiza 32" workstation sink with built-in glass rinser

Ruvati packs exciting innovation into the latest addition to their sink line: the new Ibiza 32" Glass Rinser Workstation, featuring a patent-pending design with dynamic jets that easily and efficiently rinse drinkware from coffee cups to wine glasses, saving time and effort doing the dishes. Unlike other glass rinsers that require extra countertop space and additional holes for installation, the Ibiza's design integrates the rinser directly into the sink. The clever shape and angle of the rinser allow water to drain directly into the sink without taking up any of the valuable bowl space. This innovative solution not only reduces countertop clutter but also simplifies installation. The dynamic jet can reach where you can't, and it can clean your glass in seconds.

Ruvati is known for their finely crafted, versatile line of workstation sinks and extensive LedgeFit® Collection, which features over 40 accessories compatible with all its workstation models, including the Ibiza.

In keeping with Ruvati's high-quality standards, Ibiza sinks are constructed of premium 16-gauge stainless steel that will never rust or stain. The new models include a stainless steel colander, a black composite cutting board, a foldable dish-drying rack, a stainless steel bottom-rinse grid, a basket strainer drain assembly, and a decorative drain cover. The 32" Ibiza sinks are offered as drop-in or undermount installations and are finished with a commercial-grade brushed finish. The inside corners of the sinks are sharply defined for a clean, modern look, while the underneath of the sink is wrapped in thick rubber padding to minimize noise and reduce condensation. Each Ibiza sink is covered by Ruvati's Limited Lifetime Warranty for years of worry-free enjoyment. **Learn more about the Ibiza Collection and other exciting offerings at Ruvati.com.**

It's time for a Fabulous New Faucet

Ruvati unveils the Chrono bath faucet collection with unique watch-face handles

The new Chrono faucet collection from Ruvati uniquely embodies a time-inspired design with its one-of-a-kind watch-face handles, making it a striking and FUN addition to any bathroom. This elegant and modern faucet not only enhances the look of your space but also brilliantly combines style and functionality. Featuring smooth, ergonomic twist handles, the innovative Chrono collection ensures ease of use while providing a bold statement piece in the bath, offering both practicality and a touch of flair.

Constructed from durable brass, the Chrono faucets are available in a stunning brushed gold finish and brushed nickel, crafted to coordinate with Ruvati sinks and other stainless steel fixtures. The tall vessel faucet is designed for deep sinks, providing an elegant height and optimal water flow for a modern bathroom look. The faucets feature an easy-clean nozzle with a stain-resistant finish, along with spot-free technology to keep them free from water spots and fingerprints. The dimensions include an overall height of 10-1/2 inches, spout height of 6-3/4 inches, and a spout reach of 4-1/2 inches. With a water flow rate of 1.2 GPM, the Chrono line meets all US water efficiency requirements, is ADA-compliant and lead-free, ensuring safety, longevity and ease of use.

Discover the innovation that Ruvati brings to the kitchen, bath and beyond. **For more information about the Chrono Faucets and other extraordinary Ruvati products, visit ruvati.com.**

Tap into something extraordinary!

Ruvati is expanding its product line with a new collection of faucets.

Ruvati, known for their innovative workstation kitchen sinks featuring LedgeFit technology, as well as luxurious bath sinks and freestanding tubs, is launching a beautiful collection of kitchen and bath faucets. These new faucets are designed to perfectly complement their popular collections of fixtures, enhancing the overall aesthetic in the kitchen and bath.

Launching on September 1st through their retail network, Ruvati had a successful soft launch at KBIS in Las Vegas, receiving enthusiastic feedback from designers and industry professionals alike.

The new faucet line is characterized by elegant, distinctive designs and constructed from premium lead-free solid brass for long-lasting durability. They meet high standards of quality, including cUPC, ADA, Watersense, CEC, and DOE certifications. Available finishes for the faucets include Brushed Nickel, Gunmetal Black, Matte Black, and Brushed Gold.

The kitchen faucets feature a swivel function for complete sink coverage and a pull-out spout that allows for extended reach and easier rinsing. The lever has a forward rotation of 90°, making it ideal for tight spaces.

The bath faucet line offers a variety of styles, including widespread two-handle faucets, short single-handle designs, and tall vessel faucets with distinctive handle styles. The collection also includes sleek freestanding, floor-mounted, tub faucets equipped with a hand-held shower wand for added convenience.

Like all Ruvati products, the new faucet line is backed by a Limited Lifetime Warranty. **For more information about Ruvati's fabulous new faucets, visit ruvati.com.**

Functionally Fabulous

Ruvati expands workstation line with new Dual-Tier Pro Collection featuring rounded corners and offered in Matte Gold and Gunmetal Black.

Metal finishes are an excellent way to enhance any kitchen's style. Ruvati's new Dual-Tier Pro workstation sink collection offers two exciting new finishes to amp up the style: a gorgeously refined Matte Gold and a Gunmetal Black that provides an edgy, modern aesthetic. Its sleek, good looks complement any décor and help make the kitchen an appealing space for family and friends to gather and prepare meals together.

New to the Dual-Tier Pro Collection are rounded interior corners for easy cleaning.

The line uses Ruvati's ingenious two-track system with sliding accessories to expand the range of activities performed at the workstation sinks. This versatile mix-prep station features a solid wood platform that spans the generously sized basin. A matching colander and lid with grater/slicer attachments can be used with the mixing bowl to mix, grate, slice and strain. Also included are a beautiful hardwood cutting board, two stainless steel colanders for draining pasta or rinsing fresh produce and a folding drying rack that rolls away when not in use and fits across the sink for air-drying pots and pans. **The Dual-Tier Pro line is also compatible with Ruvati's LedgeFit™ collection, offering over 40 optional accessories to enhance functionality and versatility.** This extraordinary design is smart for large kitchens with multiple chefs or smaller kitchens with limited counter space.

The Dual-Tier Pro Workstations are single-bowl designs in 33" and spacious 45" configurations, offering a generous 10" depth and a 1" slope on the basin floor for efficient water drainage. Constructed from durable 16 gauge premium T-304 stainless steel, the new line features a commercial-grade brushed finish that is both easy to clean and resistant to scratches, ensuring it remains stylish and functional for years. The soundproof coating, which includes thick rubber padding, effectively minimizes noise during use. Like all Ruvati products, the Workstation is backed by a Limited Lifetime Warranty. **For more information about the Dual-Tier Pro Workstation sinks and other extraordinary Ruvati products, visit ruvati.com.**

The Grandeur of Green

Ruvati unveils a beautiful new hue for its Fiore workstation sinks

Add a delightful infusion of color to the kitchen with Ruvati's Fiore workstation sink in a stunning new shade of emerald green. This unexpected color pop is non-traditional in the very best way – fresh and whimsical yet rich and luxurious. It evokes a sense of the outdoors, a feeling of springtime and renewal. Green pairs well with wood cabinetry and offers a dramatic contrast against common kitchen palettes like white, black and stainless steel. Its farmhouse front shows off the lush color to its fullest advantage, ensuring this sink will be a beautiful design focal point in any kitchen.

The Fiore Collection is part of Ruvati's line of renowned fireclay sinks. Handcrafted in Italy by talented artisans, fireclay sinks are crafted from locally sourced raw clay and fired at extreme temperatures to create a masterpiece of amazing strength and durability. The smooth enamel finish is impervious to chips, scratches and stains, allowing the sink to easily withstand the demands of today's busiest home kitchens.

With its workstation design, the Fiore dramatically expands the functionality of the kitchen sink. Integrated ledges along the front and back of the sink support useful accessories that allow the area to be fully utilized for prep and clean-up. Each sink includes a beautiful cutting board constructed of African Mahogany that fits neatly atop the basin, a protective bottom rinse grid, and a patented, foldable drying rack perfect for drying dishes. Optional accessories, such as a mixing bowl with platform and a condiment serving tray, are also available.

In addition to the beautiful emerald green option, Ruvati offers the Fiore Collection in white, biscuit and glossy black. Ruvati offers fireclay farmhouse sinks in widths from 24" to 36" and in single and double bowl configurations. Rounded interior corners allow for easy cleaning, while a 9" deep basin is sized to accommodate large pots and pans. Like all the brand's products, Fiore sinks are backed by Ruvati's Limited Lifetime Warranty for years of worry-free use and lasting beauty. **For more information about the Fiore Collection and other extraordinary Ruvati products, visit ruvati.com.**
